Introduction to KMS Go

Content updated: 11/28/2026

This article is designated for all users.

About

KMS Go is Kaltura's mobile app for watching, creating, and interacting with media on the go. It brings the viewing experience of your legacy Video Portal to your phone, with content discovery, suggestions, sharing, offline viewing, comments, and search.

KMS Go is a mobile app that you install on your iOS or Android device.

Channel playlists

Along with dynamic playlists, KMS Go supports channels and channel playlists, which offer a podcast-style way to watch and listen. You can subscribe to channels, get notifications about new media, and keep media playing in the background.

To set up channel playlists, see Set up channel playlists in KMS Go.

KMS Go for administrators
