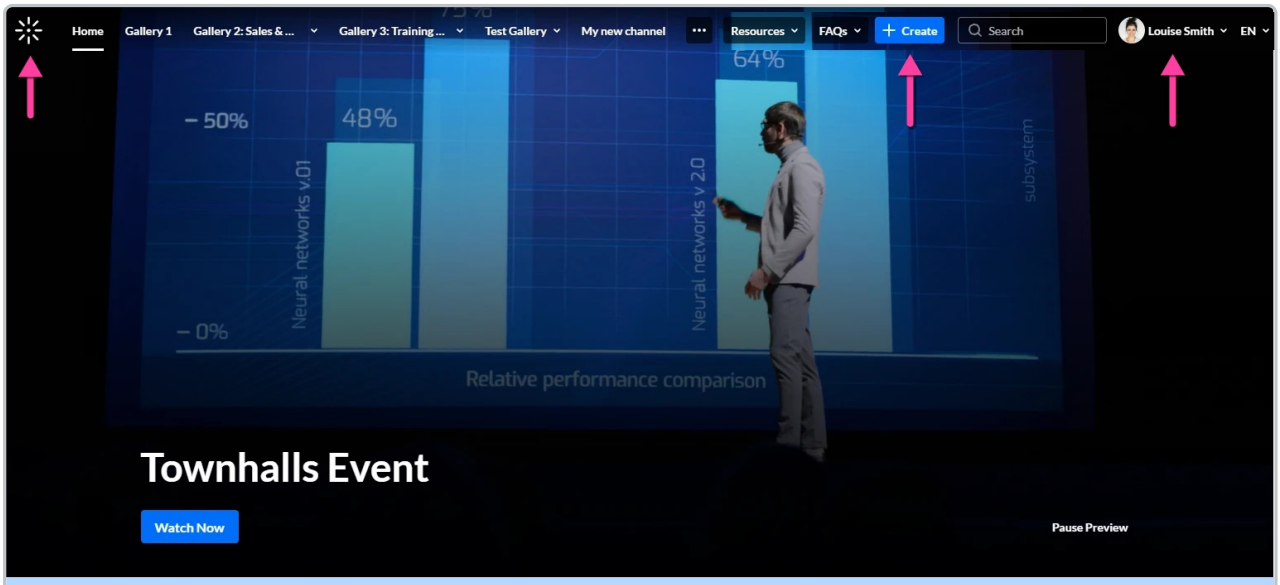
Header module

Content updated: 09/18/2022

This article is designated for administrators.

About

Your site's header is the top bar, where your logo and main navigation typically appear. The **Header module** lets you configure its settings, such as the logo, the upload button, whether the header stays visible when users scroll, and whether the header shows the user's name.



Example of a header on a Content Hubs site, showing the logo, the**+Create** button, and the user's profile picture and name

Configure

1. Go to your Configuration Management console, locate the **Header** module in the left panel, then select it. You can also navigate directly using a link: `https://{your_site_url}/admin/config/tab/header`

The **Header** page displays.

2. Configure the following:

- **headerStyle** - Select a light or dark style to match the background and theme of your header.
- **logoImageUrl** - Enter a URL for an image to use as the site's header logo.

  - If you fill in both **logoImageUrl** and **logoImageUpload**, **logoImageUrl** takes priority.
  - The site header, footer, and login logos have a maximum width of 140px and a maximum height of 36px.
  - For registration modules that fall back to the Header module logo, the registration page logo has a maximum width of 343px and a maximum height of 48px.

- **logoImageUpload** - Upload an image to use as the site's header logo.
- **logoAltText** - Enter text that describes your logo. Screen readers read it to explain what the image shows, and it appears in place of the logo if the image can't load.
- **logoLink** - Choose what happens when users select the logo:
  - Enter `false` to make the logo not clickable.
  - Enter `home` to open the homepage.
  - Enter a full URL, starting with `http://`, to open a different page in a new browser window or tab.

- **enableUploadButton** - Select one of the following options:
  - **Enable** - Shows the **Add New** button in the header if Theming isn't enabled on your site, or turns on the **+Create** button if Theming is enabled.
  - **Disable** - Hides the **Add New** button, or turns off the **+Create** button.
  - **Logged-in Only** - Hides the **Add New** button, or turns off the **+Create** button, for users who aren't logged in.
- **stickyNavbar** - Set to **Yes** to keep the header visible when users scroll down.
- **showUserNameInUserMenu** - Select **Yes** to show the logged-in user's display name next to the user image in the header, or **No** to hide it. This field applies only if Theming is enabled on your site.

3. Select **Save**.
