Download media in KMS Go on Android

Content updated: 11/29/2026

This article is designated for all users.

About

With **KMS Go**, you can download media to your Android device and manage your downloads.

Download media

If your administrator allows it, you can download media from a gallery's vertical view or a media page. Downloaded media appears in the **My Downloads** section on your homepage.

Downloaded files stay in the app. You can play them only in the KMS Go player.

Download from the vertical view

1. Swipe the media item to the left.
2. Select the **download** icon.

- To stop a download, select the **download** icon, which shows an **x**.
- To delete downloaded media from your device, select the **download** icon in the quick actions or on the media page.

Download from a media page

Select the **download** icon in the top right corner.
