About

Channel playlists in KMS Go give you a podcast-style way to follow channels, and to watch and listen on your mobile device. The screenshots show iOS, and the steps also apply to Android.

A channel playlist is a static playlist of media from a channel. It offers these advantages:

- Channel subscriptions: Subscribe to channels to see more of their content. Every channel page has a **Subscribe** button.
- New media: The channel owner can add media to the playlist. After you subscribe, new videos published in the channel appear in your subscriptions feed.
- Continuous playback: When one video ends, the next one starts automatically.
- Background playback: Media keeps playing in the background.
- Multiple media types: audio, video, and images
- Video quizzes: Take and submit them on the go.
- Push notifications: Go straight to new media.

Subscribe to a channel

You can subscribe to any channel that's visible to you. You can also subscribe from a media page.

1. Select the channel.
2. Select **Subscribe**.
   After you subscribe, you and other subscribers get notifications when content is added, if push notifications are turned on.

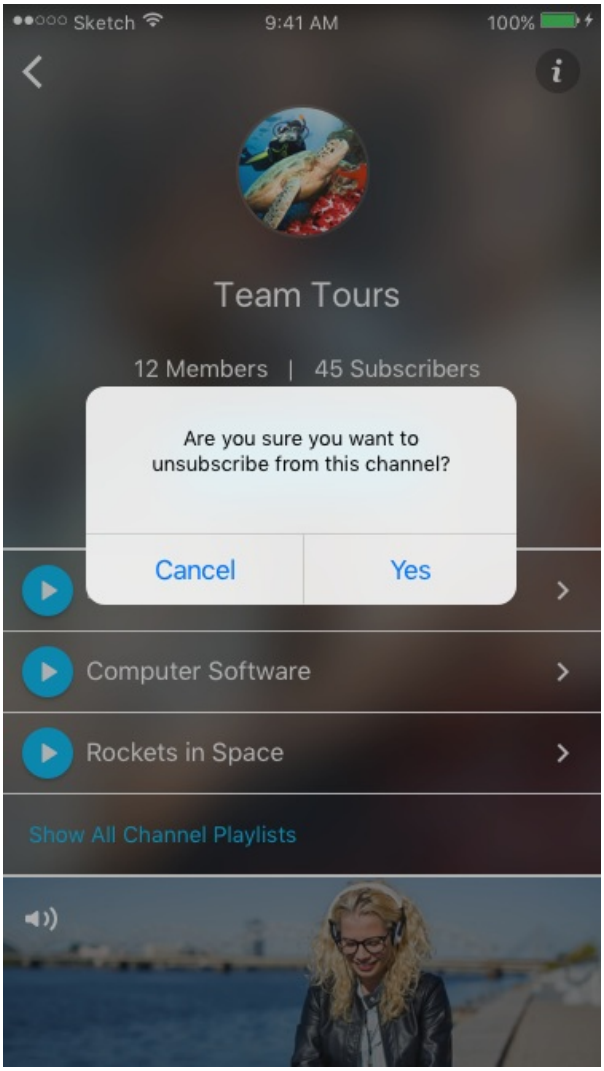
Unsubscribe from a channel

1. Select the channel.
2. Select **Subscribed**.

   An alert confirms that you unsubscribed from the channel.



Unsubscribe when media is in more than one channel

1. Select the channel you're subscribed to.
2. Clear the channel you want to unsubscribe from.

View your subscriptions on the homepage

If your administrator turns it on, you can reach media from your subscribed channels from the homepage or the bar at the bottom of the screen.

Depending on your site's configuration, **My Subscriptions** shows your subscribed channels or a feed of their media. Both are sorted by most recent first.

In this example, **My Subscriptions** shows your subscribed channels as icons.

- On: Each media item in the channel playlist plays automatically after the previous one ends. Images are skipped, and the next video or audio plays.
- Off: Each media item plays until it ends, and the next one doesn't start automatically.

Quizzes

Quizzes in a playlist don't play automatically. To play a quiz, select **Play**, and enter full screen mode. If you select **Play** in the minimized player view, the quiz opens in full screen.

Live entries

Playback continues for as long as the live session is running. You can't select **>>** to skip to the next media item in the list.

Images

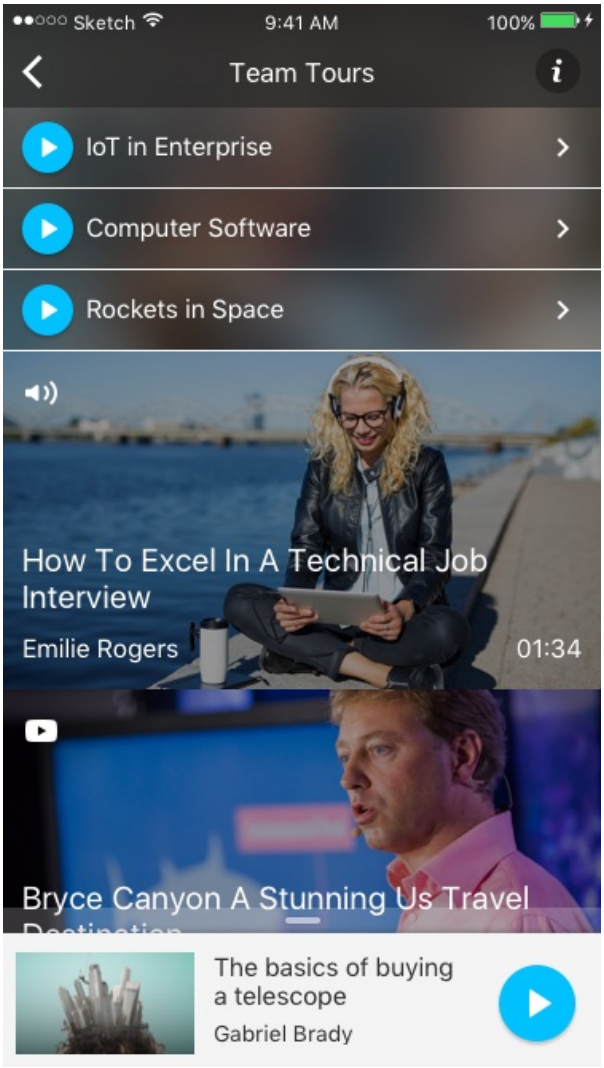
Continuous playback skips images. If you select an image, the player shows it with its metadata, like a media page. To go to the next item, select **>>** or select an item in the **Up next** list.

Play media in the background

Media keeps playing while you use other parts of the app.



When you close the app screen, your device's lock screen shows that content is playing.
