

How to Update the Kaltura Player to the Latest Version

Last Modified on 06/18/2020 10:47 am IDT

Updating Kaltura Players in the Universal Studio

The Universal Studio tab displays the complete list of the players defined in your account. To edit any player in the Universal Studio, the player should be updated to the latest Universal Studio Players.

All players are automatically available to be updated in the new Universal Studio.

Update a Player

To update a V2 player to the latest version

1. Select the Studio tab and then click Universal Studio.

The list of existing players is displayed.

Name	ID	Save Date	Creation Date	Actions
New Player V2	42964861	2 months ago	2 months ago	Duplicate Delete
MediaSpace Default Quiz Player (Do Not Delete)	42962921	2 months ago	2 months ago	Duplicate Delete Update

KMC Player	38624931	3 months ago	about a year ago	Duplicate Delete

2. Click Update to update the player to the latest version of the player.

An Update confirmation box is displayed.

Updating confirmation

This will update the player "DO NOT DELETE - MediaSpace 5.0 Embed Playlist, dark horizontal" (ID: 39779681).

Current player version: 2.61.1

Update to version: 2.57.2 ([release notes](#))

Cancel

Update

3. Click Update.

An update confirmation box is displayed.

Player Updated

The player was updated successfully.

OK

4. Click OK.

NOTE: The player version is also automatically updated by re-saving the player settings. To do so, go to the KMC Universal Studio tab, select a player you wish to update and click on "Save Player Settings".
