

Watching a KMS GO Podcast

Last Modified on 10/13/2019 12:13 pm IDT

This guide is for KMS GO Mobile users. The graphics in this article are for iOS and are applicable to Android as well.

The KMS GO Podcast Experience

A podcast is a static playlist that includes KMS channel playlist's media.

The Podcast Experience provides the following advantages:

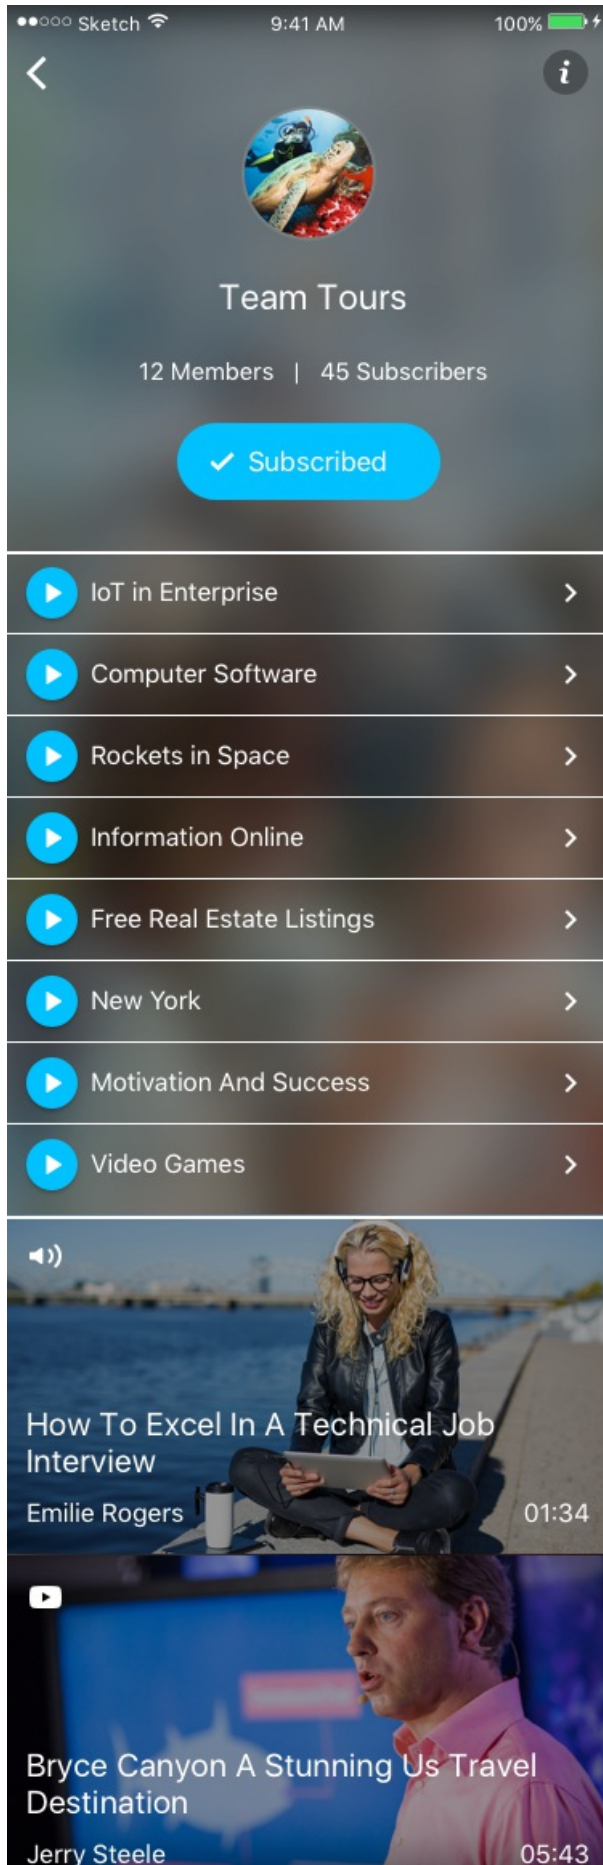

- Channel Subscriptions. Subscribe to channels you like to see more content from those channels. You can find a Subscribe button under any channel's page.
- The channel owner can add media to the playlist. After you subscribe to a channel, any new videos are published on the channel will show up in your Subscriptions feed.
- Continuous playback - one video ends and the other one starts automatically - back to back play
- Background playback - ability to continue watching media in the background.
- Support for multiple types of media - audio video, images
- Push notifications

Subscribing to a Channel

To Subscribe to a Channel

- Select the Channel.
- Tap Subscribe.

After a user subscribes to a channel, all subscribed members get notification updates when content is added.

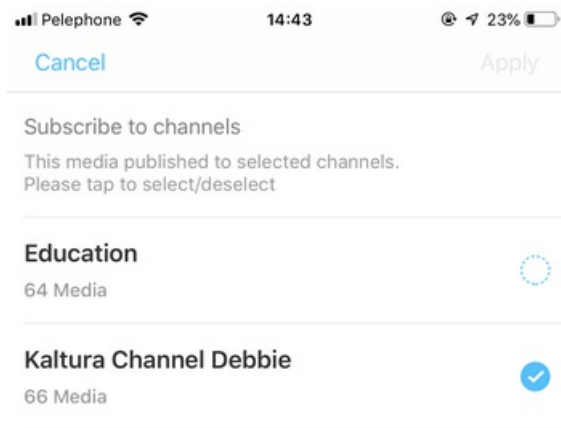

To Unsubscribe from a Channel

- Select the Channel.
- Instead of tapping Subscribe, tap Subscribed. An alert confirming that you have unsubscribed from the channel is displayed on your screen.

To unsubscribe from a channel if the media is published to more than one channel

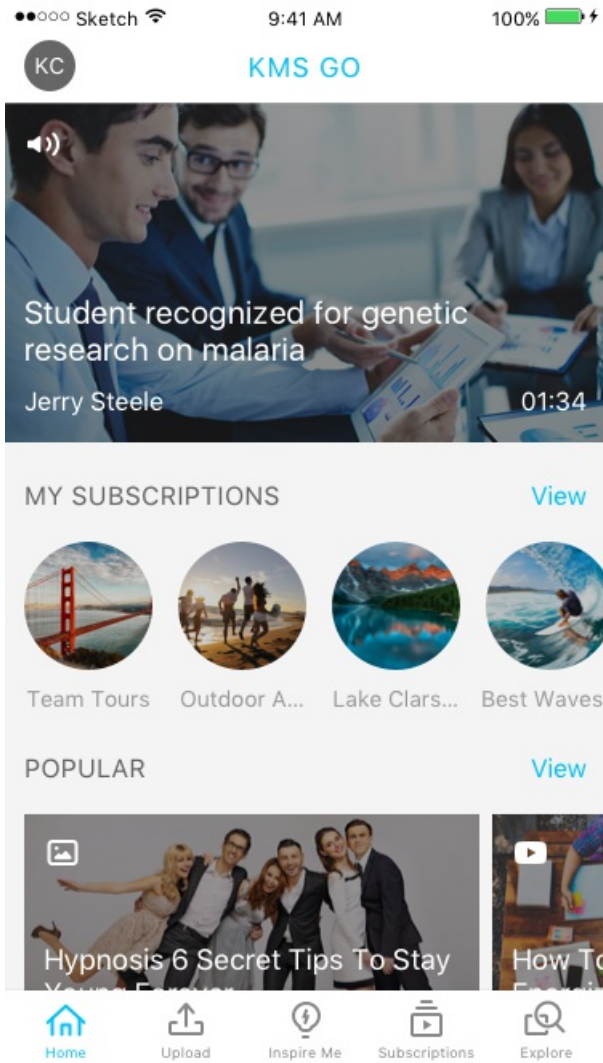

1. Tap on the Channel that you are subscribed to.
2. Tap to deselect the channel to unsubscribe.

Viewing Channel Subscriptions from the Home Page

When channel subscriptions are enabled, all channels that you are subscribed to are displayed on the Home page. The display depends on your administrators configuration settings.

The following shows all channels a user is subscribed to under My Subscriptions as Subscribed Channels icons. This setting is configured by your KMS GO administrator.

The following shows all channels a user is subscribed to under My Subscriptions with the Subscribed Media Feed option enabled. This setting is configured by your KMS GO administrator.

The basics of buying a telescope

Gabriel Brady

1x

14 h ago 17K Views Public

Buying the right telescope to take your love of astronomy to the next level is a big next step in the development of your passion for the stars. In many ways, it is a big step from someone who is just fooling around with astronomy to a serious student of the science. But you and I both know that there is still another big step after buying a telescope before you really know how to use be big one.
