The My Playlist page allows users to see all available playlists and create new playlists directly from this page by clicking on the Create Playlist button. See [Create and Add Media to a Playlist](#) from the My Playlists Page.

The page includes:

- A graphical representation of all playlists, including a Watch Later Playlist that is used to collect content to watch later and is shared with the [KMS Go application](#). The Watch Later Playlist cannot be deleted or published.
- The ability to view the page in grid or list format by clicking on the grid or list icons in the upper right hand corner of the page.
- Thumbnail, number of items in the playlist, playlist name, status, and information on when the playlist was last updated.
- Link to the [Playlist Details](#) page, [Share and Embed Playlists](#) page, and [Edit Playlist Details](#) page for each playlist.
- Ability to search for (using detailed filters) and delete playlists.
