

Moderation

This article is designated for administrators.

The Moderation module is relevant to the v2 player only.

For v7 player, text can be changed directly from the player. To customize the moderation reasons, go to [Advanced Settings](#) and edit the `moderateOptions` labels. To learn more, see [The Kaltura Player Studio Admin Guide - Top & Bottom Bar Settings](#)

About

Users can click on the flag icon, and then choose a reason for reporting the content. The administrator can then review content before it's published to eliminate spam and inappropriate content.

Using the **Moderation module** administrators can change the reasons for moderation text. See [Moderating Content](#) to learn more about the KMC admin's experience.

Prerequisites

The Moderation plugin must be available on the player for users to select it. To learn how to set the **Moderation** Plugin on the player, see <https://knowledge.kaltura.com/help/universal-studio-information-guide#moderation>.

Setup

1. Go to the KMS admin page and navigate to the **Moderation** module.
2. Enter the reasons users can choose for flagging media. (If none are provided, the default Kaltura reasons will be used)
 - **reasonSex**
 - **reasonViolence**
 - **reasonHarmful**
 - **reasonSpam**
3. Click **Save**.
