kaltura

MediaCollaboration

> 🔒 **This article is designated for administrators.**

This module enhances the collaborative potential of Kaltura MediaSpace. You can add any users or group you want as collaborators, enabling everyone to work together seamlessly on media projects.

> ⚠️ To add a user as co-editor, co-publisher, co-viewer, or Webcast moderator, the user must have an applicative user created for them prior to using this feature. An easy way to achieve this is by simply logging into KMS or KAF.

Configure

1. Go to your KMS or KAF admin page, and navigate to the **MediaCollaboration** module. Your link should look like this: https://{your_KMS_URL}/admin/config/tab/mediaCollaboration.

2. In the MediaCollaboration window, configure the following:

mediaCollaborationEnabled - Set to 'Yes". Enabling this feature also allows the media owner to be changed, and co-editors, co-publishers, co-viewers and Webcasting moderators to be edited.

> ⚠️ Note: If this configuration is set to 'No' after having been set to 'Yes', and in the meantime some entries were added with collaborators, those collaborators will lose their ability to view, edit or publish these entries.

changeOwnerEnabled - (This field is only available when the MediaCollaboration module is enabled.) The 'change media owner' feature (as shown below) provides the ability to change the owner of the media.

> ⚠️ Note that once you pass the ownership to someone else, your access to the media will be removed unless you add yourself as a collaborator first.

Media Owner

Change who can administer and is credited with media. Note that this is not necessarily the copyright owner of the content.

⇄ **Change media owner**

collaborationEnabledInUploadForm - Enable the option to add collaborators (co-editors, co-publishers, co-viewers, Webcasting moderators) in the upload media form.

⚠ **collaborationEnabledInUploadForm** is relevant to the basic UI only.

showInSearch - Set to 'Yes' to enable filtering by ownership and collaboration.

excludeGroups - Enter the group or user IDs, separated by commas, to hide from the 'Add a Collaborator' and 'Change Media Owner' search (as shown below). This means that those users and groups will be excluded from the search options; all others can be found.
3. Click **Save**.

User experience

After enabling the module, a **Collaboration** tab displays on the Edit media page:

Owner: Louise

Media Entry ID: 1_11zeircy

Media Type: Video

Publish Status: Published

Creation date:
June 06, 2023 1:40 PM Asia/Jerusalem

Update date:
June 06, 2023 2:59 PM Asia/Jerusalem

Media asset update date:
June 06, 2023 1:40 PM Asia/Jerusalem
