# Headermenu module

Last Modified on 02/17/2025 4:11 pm IST

> 🧑‍💻 **This article is designated for administrators.**

About

This module allows you to specify the items visible at the top right of the navigation bar ('header') or within the user drop-down menu, for example, **My Media** or **My Playlists**. Additionally, you can use it to add a link to your My Profile page, whether it's accessed through the user menu or directly from the navigation bar.

Example of a user menu in a video portal

Enable the module

1. Go to your Configuration Management console, and click the **Headermenu** module. You can also navigate directly using a link: https://{your_KMS_URL}/admin/config/tab/headermenu.

The Headermenu page displays.

Search Configuration

Headermenu

enabled   Yes ⌄   Enable the Headermenu module.

menu

Define the items that are displayed on the top right in the header menu.

1 DELETE

type   URL ⌄
Type can be My Media, My Playlists, URL, Menu, or My Channels.

label   My Profile   For a URL, enter the URL label. For a Menu, enter the label.

link   /profile
Enter a URL. The url can link to external sites (should start with http://) or an internal page (should start with /).
sameWindow   Yes ⌄

2. Set **enabled** to 'Yes' to enable the module.

Add options to your user menu

1. Configure the following:

- Click the blue **+Add "menu"** button.

A new section displays.

- **type** - Choose one of the options (**My Media, My Playlists, My Channels, My History, My Live Rooms, My Powtoons, My recycle bin, My Content Analytics**) from the drop-down menu.

menu

Define the items that are displayed on the top right in the header menu.

1 DELETE

type   [My Media ⌄]   Type can be My Media, My Playlists, URL, Menu, or My Channels.

- My Media
- My Playlists
- URL
- Menu
- My Channels
- My History
- My Live Rooms
- My Content Analytics

label   For a URL, enter the URL label. For a Menu, enter the label.

2 DELETE

type   Type can be My Media, My Playlists, URL, Menu, or My Channels.

> ℹ
>
> The items that appear in your drop-down menu may vary depending on what has been enabled in your instance.

- **Label** - You can leave the label field blank, in which case the menu item will appear in the user menu with the default label (for example, "My Channels," as shown below).
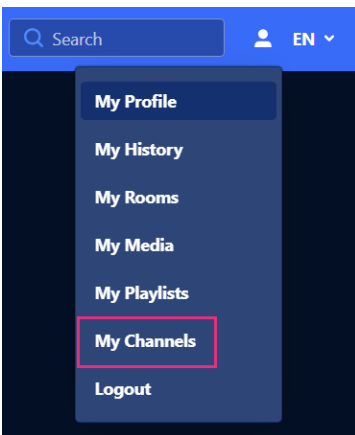

- Or you can enter your own custom label, as shown below.

6 DELETE

type   [My Channels ⌄]   Type can be My Media, My Playlists, URL, Menu, or My Channels.

label   [Marketing channels]   For a URL, enter the URL label. For a Menu, enter the label.

The custom label will display in the user drop-down menu, as shown below.
To add more items to the menu, click **+Add "menu"** again and repeat the steps above.

2. When you've finished configuring your menu, click **Save**.

Add a custom link to your user menu or navigation

1. Configure the following:

- **type** - Choose **URL** from the drop-down menu.

A new section displays.

In the new section, configure the following:

- **label** - Enter the URL label (type the name you want to display in the menu)
- **link** - Enter a URL. The URL can link to external sites (should start with http://) or an internal page (should start with /)
- **sameWindow** - Select whether the link should open in new window (target = _blank) or in the same window. This is applied to external links only(absolute URLs).
- **linkLocation** - Select whether the link should appear in the **Header** (the navigation bar) or in the **User drop-down menu**.

---

2. Click **Save**.

Example

To add **My Profile** to the user menu, configure the URL section as follows:

- **Type -** URL
- **Label -** My Profile
- **link -** /profile
- **sameWindow** - Yes
- **linkLocation -** User Drop Down

The custom link will display in the user drop-down menu as shown below.

To add **My Profile** to the header, in the **linkLocation field**, select **Header.**

The custom link will display in the user drop-down menu as shown below.

Add a menu to your navigation

1. Configure the following:

- **type** - Choose **Menu** from the drop-down menu.
- **label** - Enter the Menu label (name of the menu)
- Click **+Add "items"**.

A new section displays.

- **label** - Enter the label for the menu item.
- **link** - Enter a URL. The url can link to an external site or to an internal page.
- **sameWindow** - Select whether the link should open in new window (target = _blank) or in the same window. This is applied to external links only (absolute URLs).

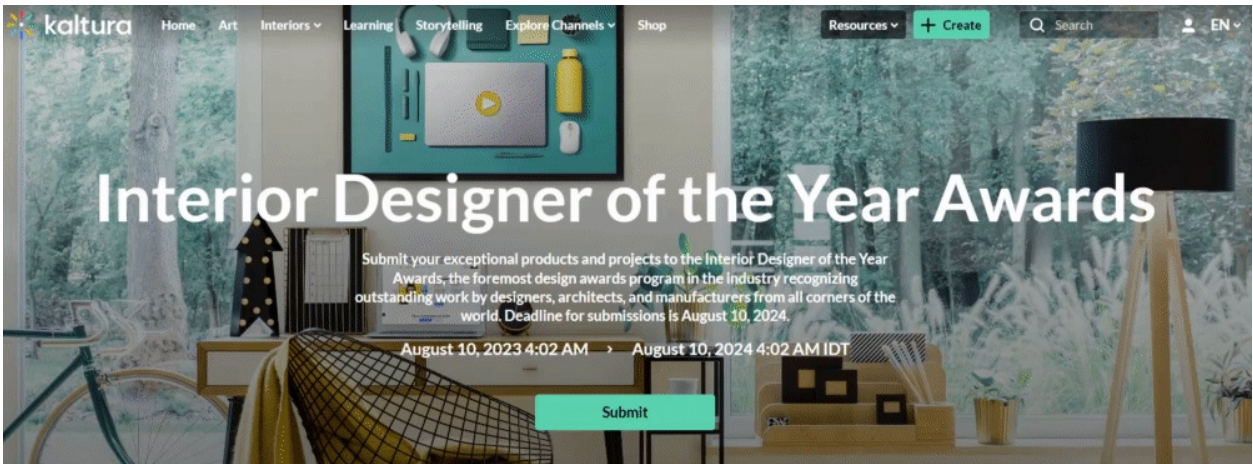

2. Click **Save**.

Example

In our example below, we added a menu called 'Resources':

- **Type -** Menu
- **Label -** Resources
- **link -** https://knowledge.kaltura.com/
- **sameWindow -** No

⚠️

Note that if administrators opt to keep the search bar open for all users in the Search module settings, any header menu items will be covered by the search bar.
