

Channeltheme

 This article is designated for administrators.

 Supported in **KMS Video Portal** only.

About

This module is configured to allow channel managers to:

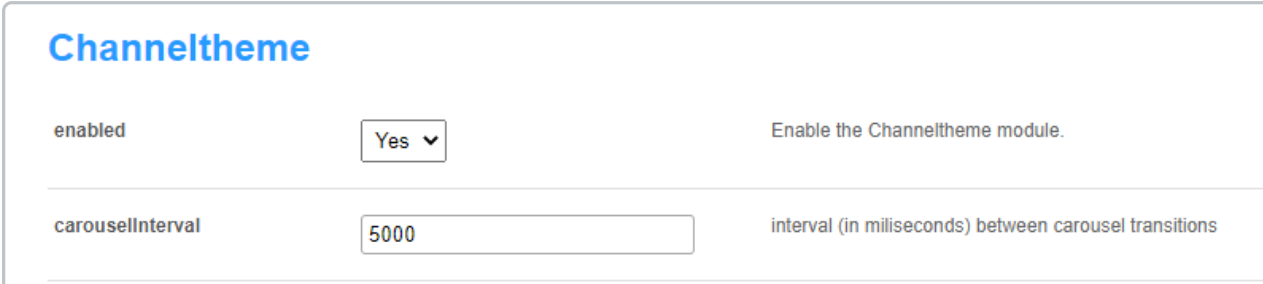

- Set a theme for their channel.
- Enable a carousel and set the carousel interval for the channel
- Select which players to use for different media types in the channel.
- Select the first tab in the channel.
- Choose a theme preference.

Module Configure

enabled - Set to Yes to enable this module.

carouselInterval - Enter the interval (in milliseconds) between carousel transitions. The default time is 5 seconds.

The following graphics demonstrate the **enabled** and **carouselInterval** settings.

The screenshot shows the 'Channeltheme' configuration page. It has a title 'Channeltheme' in blue. Below it, there are two settings. The first is 'enabled', which has a dropdown menu currently set to 'Yes' and a description 'Enable the Channeltheme module.' The second is 'carouselInterval', which has a text input field containing '5000' and a description 'interval (in milliseconds) between carousel transitions'.

playerSet - Create sets of players. A player set contains a list of players, one for each type of media. Media without a set player uses the default media player.

Click **+Add "playerSet"** to create a custom player set.

- **playerSetName** - Enter a name for the player set and click **+Add "player"**.
- **entryType** - Select the entry type from the drop-down list.
- **playerId** - Enter the player Id for the specified entry type.

The following is an example of a **playerSet** configuration created in this module.

Delete - Click to delete the player configuration.

Delete - Click to delete the playerSet configuration.

The following graphic demonstrates a **Channel carousel**.

App Configure

After enabling the **Channeltheme module**, the Theme tab is displayed on the Channel's Edit page, on your MediaSpace site.

In the Edit Channel page, Channel Manager may select the **playerSet** created in this module.

The following graphics demonstrate the Theme tab setting:

Edit Education

Details **Theme** Playlists Users

Enable channel carousel: ☐

Set to enable the channel carousel

First tab:

Site default

Select which tab should show first in the channel.

Channel Player Set:

Site Default Players

Site Default Players

Player with download

to use as the default for media in this channel.

Theme Preference:

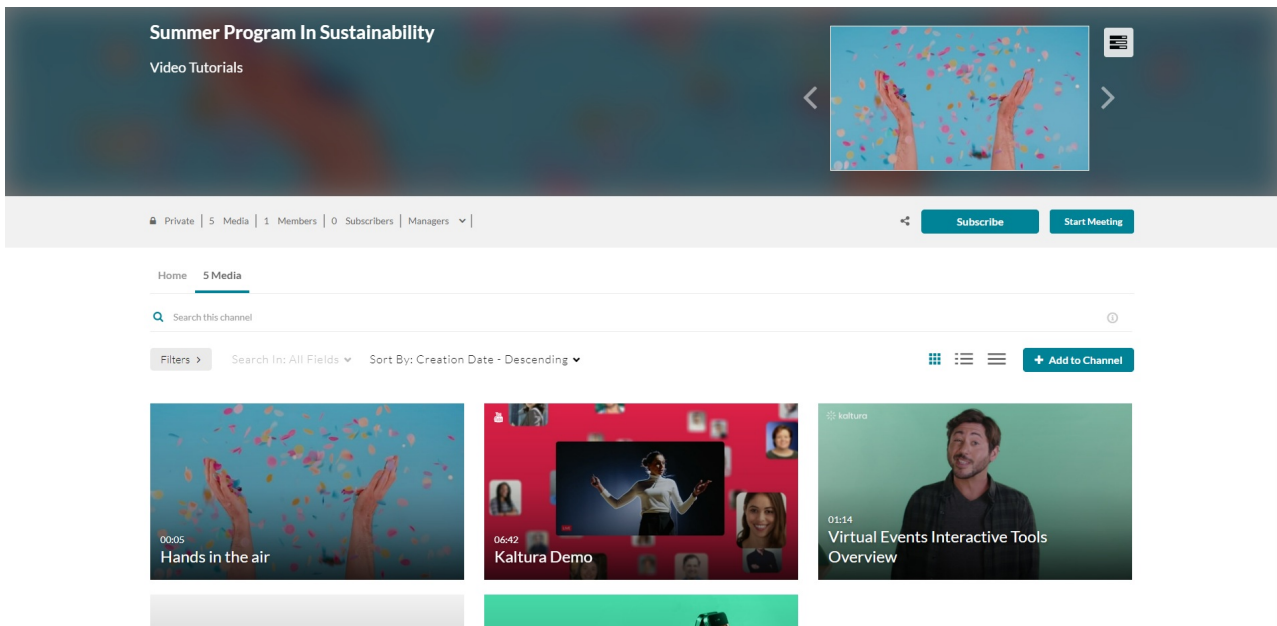

Category theme precede Ent

Choose which theme should take precedence in case where a themed entry is published to this channel.

Submit

To learn more about the user's capabilities in the Theme tab, please go to [Managing a Channel in Kaltura MediaSpace](#).

The following graphics demonstrate a themed channel.

The screenshot shows a Kaltura channel interface. At the top, the channel title is "Summer Program In Sustainability" with a subtitle "Video Tutorials". Below the title bar, there are statistics: "Private | 5 Media | 1 Members | 0 Subscribers | Managers". To the right are "Subscribe" and "Start Meeting" buttons. The main content area has tabs for "Home" and "5 Media". A search bar is located below the tabs. Below the search bar, there are filters and a "Sort By: Creation Date - Descending" dropdown. The media list shows three items: "Hands in the air" (00:05), "Kaltura Demo" (06:42), and "Virtual Events Interactive Tools Overview" (01:14). Each item has a thumbnail image.
