

How to retrieve the Partner ID, API Admin Secret and API User Secret

Last Modified on 08/28/2020 6:22 pm IDT

To retrieve account information

*Including the account partner id, user and admin API secret keys:

1. login to Kaltura Management Console,
2. Open the Settings tab
3. Select the Integration Settings sub-tab.

For more information see: [What can you configure in the Integration Settings?](#)
