

# Streaming Zoom to a Kaltura Live Entry

This article describes how to live stream your Zoom meeting into a Kaltura Live Entry.

To set up a live stream Zoom Meeting into a Kaltura Live entry

1. Create a Live Stream entry in the KMC by following the article: [Creating a Live Stream Entry in Kaltura Using the KMC](#).
2. After you create your live stream entry, open that entry and navigate to the **Live Stream** tab. The information you will be pulling from this area is the **Primary URL** and the **Stream name**.

The screenshot shows the Kaltura interface for configuring a live stream. The top navigation bar includes 'CONTENT', 'STUDIO', 'ANALYTICS', and 'SERVICE DASHBOARD'. The main header shows the entry title 'A Day in the Life of a Project Manager' and metadata like 'Creation Date: 03/10/2022' and 'Owner: patrick.lorimer@kaltura.com'. A left sidebar contains a menu with options like 'Metadata', 'Thumbnails', 'Access Control', 'Scheduling', 'Live Stream' (selected), 'Related Files', 'Clips', and 'Users'. The main content area is titled 'Live Stream' and contains several sections: 'Broadcasting URLs' with fields for 'Primary URL' and 'Backup URL', a 'Re-Generate Stream Token' button, and a 'Stream name' field; 'RTSP Broadcasting URLs' with 'Primary URL' and 'Backup URL' fields; 'SRT Broadcasting URLs' with 'Primary URL', 'Primary Stream ID', 'Secondary URL', 'Secondary Stream ID', and 'Encryption Passphrase' fields; 'Video Conference Integration' with a 'SIP user' dropdown and a 'Generate SIP User' button; 'Live Stream Configuration' with 'DVR Status' (Off), 'Recording' (On), and 'Preview Mode' (On); and 'Transcoding Profile Configuration' with a 'Transcoding Profile' dropdown set to 'Passthrough'.

3. Open your **Zoom Meeting**, go to the **More options menu** and select **Live on Custom Live Streaming Service**.
4. On the **Live stream the Zoom meeting to a Custom Service** page, set the following details:
  - a. Set the **Primary URL** under **Streaming URL**.
  - b. Set the **Stream name** under **Streaming key**.
  - c. Set the **Live Entry page URL** under **Live Streaming page URL**.
  - d. Click on **Go Live**.

### Live stream the Zoom meeting to a custom service
