

Using the Kaltura Video Conferencing Mobile App for Android

Getting Started

[Kaltura Video Conferencing Mobile Application - Getting Started Guide for End-Users](#)

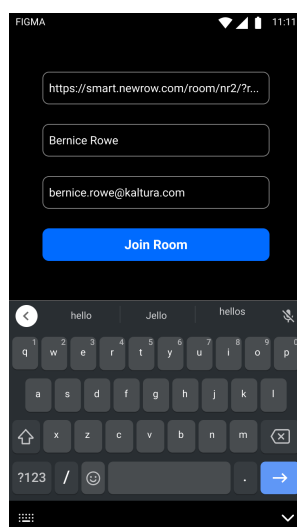

Download Kaltura Video Conferencing Mobile App

1. Download the Kaltura Video Conferencing mobile app from Google Play.
2. Click **Open**.

Join a Room Using the App

 Disclaimer: Currently, you can join a room using the app as a *guest*. Joining as a *user* will be available for General Availability.

1. Once you have received a Kaltura Meeting invite, there are two ways to access the Kaltura Meeting room:
 - a. You may launch the Kaltura Video Conferencing Mobile App and type (or paste) the room URL from your invite into the (top) Room URL field,
OR
 - b. You may click on the link included in your invite and the Kaltura Video Conferencing Mobile App launches with the URL already populated in the (top) Room URL field.
2. Type your Name and Email Address.

3. Click the blue **Join Room** button.

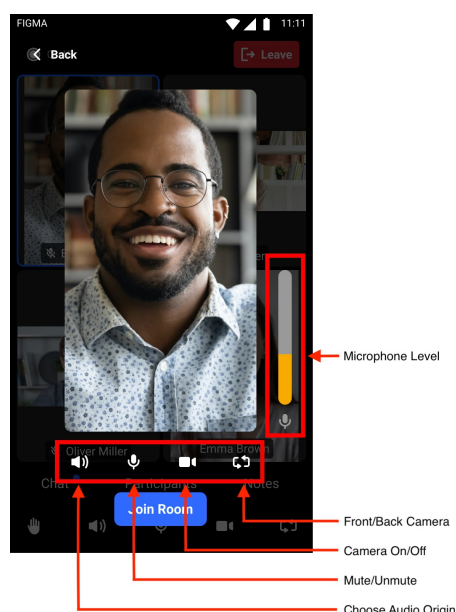

Activate the Camera and Microphone

If this is your first time launching the Kaltura Video Conferencing Mobile App, you are prompted to activate the camera and microphone. These actions are only necessary upon launching Kaltura Video Conferencing Mobile App for the very first time. On subsequent launches, you will not be prompted to perform these actions.

Setting Up

Before you are placed in the Kaltura Meeting room (or the lobby if the host has not yet arrived and started the meeting), you have the opportunity to make many audio and visual settings.

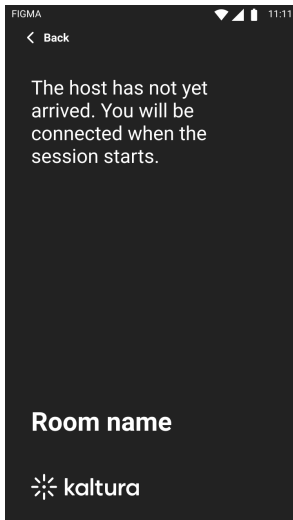

You may choose the origin of audio (from the phone or from a speaker), turn audio off, adjust your microphone level, mute yourself, turn your camera off and on, and switch from the front camera to the back camera.

Once you've finished making your audio and visual settings, click the blue **Join Room** button.

Lobby Page

Upon clicking the **Join Room** button, if the host has not yet arrived and started the meeting, a notification displays. Click **Wait** to remain in the lobby until the meeting starts, or click **Leave** to return to the Join Room screen.

Meeting in Progress

Once the host arrives and starts the meeting, you are connected and are able to participate in the meeting.

Raise Your Hand

Grab the host's attention by raising your hand in the meeting. Raising your hand in the meeting sends a notification to the host.

1. In the meeting, click the Raise Hand icon.

2. After your hand is raised, you will see the icon in a selected state.

Lower Your Hand

The host can put down your hand after addressing your question. If you no longer need the attention of the host, you can put down your hand yourself by clicking the Raise Hand icon again. This dismisses the notification.

NOTE: The following functionality may or may not be available on your instance. Depending on how your Admin has configured Meeting Room settings, you may be able to chat with participants and/or the host, see a list of participants, and/or view notes.

Chat

If configured, hosts and participants can communicate with each other in the meeting. The exchange is visible to everyone in the meeting.

1. In the meeting, click on Chat.

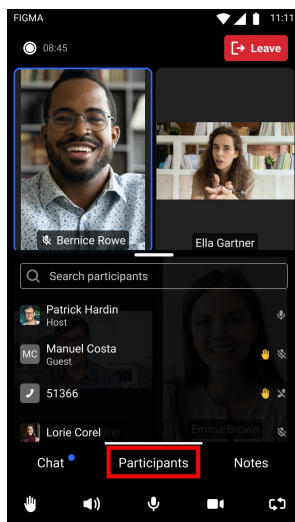

2. Select the text entry field at the bottom of the chat (where the placeholder text *Type a message...* is displayed).
3. Type in your message.
4. Press the **enter** or **return** key on your keyboard.
5. To exit this functionality, drag the Chat window down.

NOTE: Depending on how your Admin has configured Chat settings, you may be able to direct questions to your host privately and/or participate in polls.

Participants

If configured, you may view a list of participants currently in the meeting.

1. In the meeting, click on Participants. A list of participants is displayed.

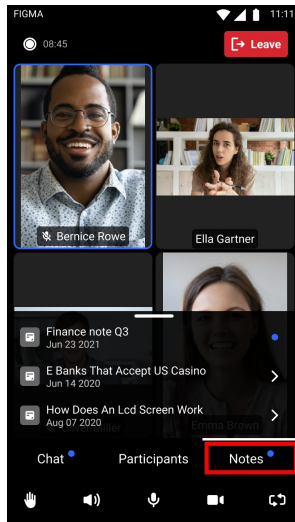

2. To exit this functionality, drag the Participants window down.

Notes

If configured, you may view notes during the meeting.

1. In the meeting, click on Notes. If notes have already been taken, they are displayed as a clickable list. If no notes have been taken, the list is empty.

2. To exit this functionality, drag the Notes window.

Leave Meeting

Meeting participants can leave the meeting by closing the Kaltura Video Conferencing Mobile app.

Participants can also click the **Leave** button to leave the meeting.

1. From within the meeting, click the red **Leave** button. You are asked to confirm your action.
2. Click **Leave** to leave the meeting, or click **Cancel** to stay. If you click **Leave**, you are redirected to the Join Room screen. If you click **Cancel**, the action is canceled and you remain in the meeting.
