

Polls activity report

The Polls activity report provides comprehensive poll data, including user votes.

See [Analytics tab - Reports](#) for instructions on generating and downloading this report.

Data in the Polls activity report includes the following:

- contextId - A unique ID of the context the poll was answered in (a context can be a specific session or the event's home page)
- pollId - A unique ID of a poll
- userId - A unique ID of the user
- userFirstName
- userLastName
- userEmail
- question - The poll's question
- vote (answer) - The user's vote
- voteTime - The time at which the user answered the poll in the time zone GMT+0
