

Add a channel to a channel collection

 This article is designated for all users.

 The following instructions depend on having the [Theming module](#) enabled.

Channel Collections are a great way to group together related content. You can create a collection of anything you want - Marketing videos, product videos, or even just a collection of favorites. The collections are configured by your administrator using the [Channelcollections module](#), and once created, channel owners can associate their channels with those collections.

1. From the user menu , select **My Channels**.

2. The My Channels page displays.

- On the **My Channels** page, locate the channel you want to add to a collection and click on its pencil icon.

You can also click on the thumbnail and from the Actions menu, choose  **Configure**.

The **Edit** page displays.

Edit My new channel

Underline

This is my new channel

Tags:

Privacy:

- ☐ Open - All logged in users can view and contribute content (contribution is not allowed for viewer-role users).
- ☐ Restricted - All logged in users can view content and only channel members can contribute content.
- ☐ Private - Only channel members can view and contribute content.
- ☐ Shared Repository - Only channel members can view and contribute content; Content may be published to other channels, according to publishing entitlements.
- ☐ Public, Restricted - Anyone can view content (including anonymous not logged-in users). Only channel members can contribute content according to their publishing entitlements.
- ☒ Public, Open - Anyone can view content (including anonymous not logged-in users) and all logged in users can contribute content.

Options:

- ☒ Enable comments in channel
- ☐ Keep comments private to channel.
- ☒ Enable subscription to channel (link to subscribe <https://4834032.mediaspace.kaltura.com/channel/My+new+channel/292497862/subscribe>)
- ☒ Enable Newrow Live Room

4. From the Edit page, choose **Collections**.

Edit My new channel

Collections

[Advanced Settings](#)

Collections:

- ☐ Fashion trends
- ☐ Outdoors
- ☒ Design news

The Collections tab shows the channel collections that were created by your Admin.

5. Choose the collection you'd like to associate the channel with.
Next are filtering options. These were also created by your Admin.
6. Choose the relevant options for your channel collection.

The Channels Collection page **Design news** allows to filter by **Style**. Select a value for this channel:

Style:
☒ Classic

☐ Contemporary

☐ Modern

7. Click **Submit**.

That's it!

⚠ In order for the channel collection to display in the navigation menu, you must configure it in the [navigation](#) module.

The following demonstrates the channel collection page being selected from the navigation menu.

The screenshot shows the Kaltura user interface. At the top is a blue navigation bar with the Kaltura logo and menu items: Art, Interiors, Open Gallery, Storytelling, Explore Channels, Shop, and Test playlist. On the right of the bar are buttons for '+ Create', a search bar, and a user profile icon labeled 'EN'. Below the navigation bar is the 'Edit My new channel' page. The 'Collections' tab is selected, showing options for 'Fashion trends', 'Outdoors', and 'Design news' (which is checked). Below this, there are two sections for configuration: one for 'Outdoors' allowing selection of a date (December, January, or February) and one for 'Design news' allowing selection of a style (Classic, Contemporary, or Modern). A 'Submit' button is at the bottom of the configuration area.

Now you can continue adding as many channels as you want to your channel collection.
