kaltura

Getting to know your landing page and webinar site

Landing page

The Landing page lists the webinar name, start/end date/time, a countdown to the webinar start time, and the webinar description. The page displays an **Enter the site** button that, when clicked, leads to the webinar site. When registration is open, the page also displays a **Register** button for those who have not yet registered for the webinar.

Following is an example of a landing page:

Webinar site

The webinar site is a website that hosts your webinar content. It has a unique URL. A webinar site is created for each webinar created on Kaltura Events. The webinar site lists a countdown to the webinar start time, the webinar name, start/end date/time, speakers, and the webinar description. The page displays an **Enter session** button that, when clicked, leads to the Kaltura room. You may click **Add to calendar** to add this webinar to your calendar or **Share** to share this site on socials or via email. Here you may also copy a link to the webinar site.

Following is an example of a webinar site:
