

Replace videos in KMC

Last Modified on 01/08/2026 10:27 am IST

 This article is designated for administrators.

About

You can replace a media file in KMC without changing the media ID, metadata, links, embeds, or analytics. When you replace a media item, the original source file is swapped out and all transcoding flavors are regenerated together, helping resolve issues such as stuck or incomplete flavors.

Replace a video

1. Log into KMC and under the **Entries** tab, locate the media you want to replace

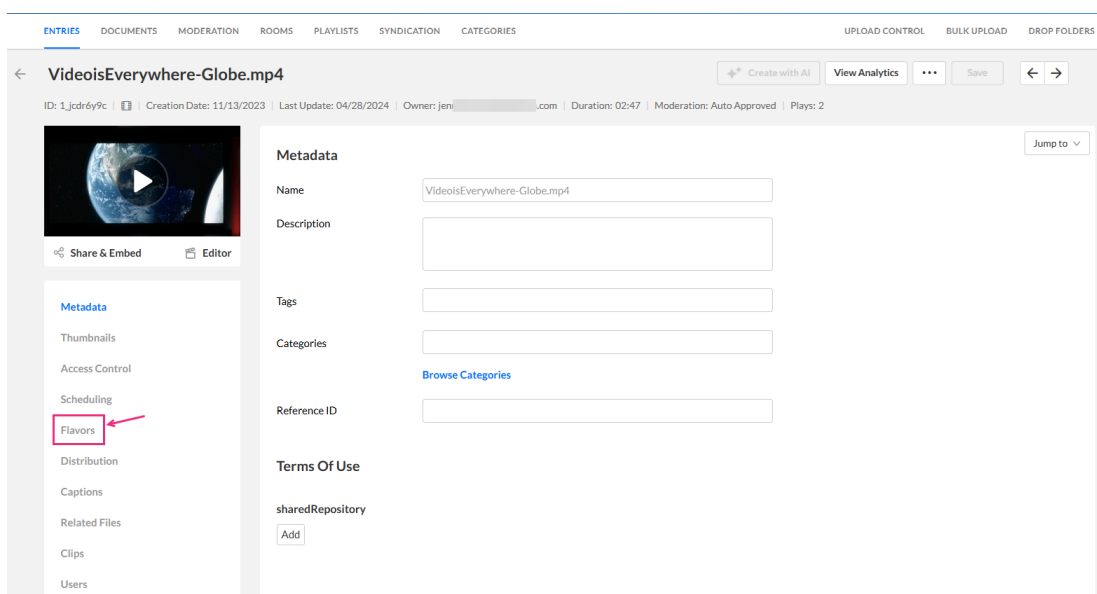

2. Click on the entry.

The entry details page displays.

3. Click the **Flavors** tab.

The **Flavors** section displays.

4. Select the replacement method: **Upload from Desktop**, **Import from URL**, or **Match from Drop Folder** (to learn more about these methods, see [Upload Media via KMC](#) and [Drop folders Service for Content Ingestion](#).)

Flavors

All required Transcoding Flavors are available. Entry is ready for publishing.

Replace Video

Upload from Desktop | Import from URL | Match from Drop Folder

Flavor	Asset ID	Format	Codec	Bitrate (kbps)	Dimensions	Size (KB)	Status	Tag
Source	1_t98ul6yg	mp4	avc1	921	640 x 360	18801	OK	sol
Basic/Small - ...	1_g8uq4chc	mp4	avc1	459	640 x 360	9371	OK	mo
Basic/Small - ...	1_ub69mo1r	mp4	avc1	598	640 x 360	12216	OK	mo

After you trigger the action, an alert appears: *Video replacement is in progress.*

Replace Video

Upload from Desktop

Import from URL

Match from Drop Folder

Flavor	Asset ID	Format	Codec	Bitrate (k...	Dimensions	Size (KB)	Status	Tags
Source	1_t98ul6yg	mp4	avc1	921	640 x 360	18801	OK	sourc
Basic/Small - ...	1_g8uq4chc	mp4	avc1	459	640 x 360	9371	OK	mobil
Basic/Small - ...	1_ub69mo1r	mp4	avc1	598	640 x 360	12216	OK	mobil

When you trim an entry, you trigger a similar process that replaces existing flavors with the trimmed version. See [Kaltura Video Editing Tools](#) to learn about trimming videos.

Replace Zoom recordings

1. Click the **Upload from Desktop** button.

(The default action opens your computer files. If this happens, click 'Cancel'.)

The **Update Video** window displays.

2. From the **Transcoding profile** drop-down menu, choose **Zoom_Recordings**.

Update Video

Transcoding profile	File name	Size
Default		
source only		
Zoom_Recordings		
Msft_Teams_Recordings		
Kaltura_Meeting_Recordings		
Capture_Tools_Content		

+ Add File

upload

Cancel Upload

3. Click **+ Add File**.

Update Video
