

Replace an entry via KMC

Last Modified on 06/27/2025 3:30 pm IDT

 This article is designated for administrators.

About

You have the option to swap out media content without altering the entry's metadata, ID or analytics. When replacing an entry, all transcoding flavors are updated together to prevent any errors between the old and new versions. Only video entries can be replaced.

Replace media

1. Log into KMC and under the **Entries** tab, locate the entry you want to replace.

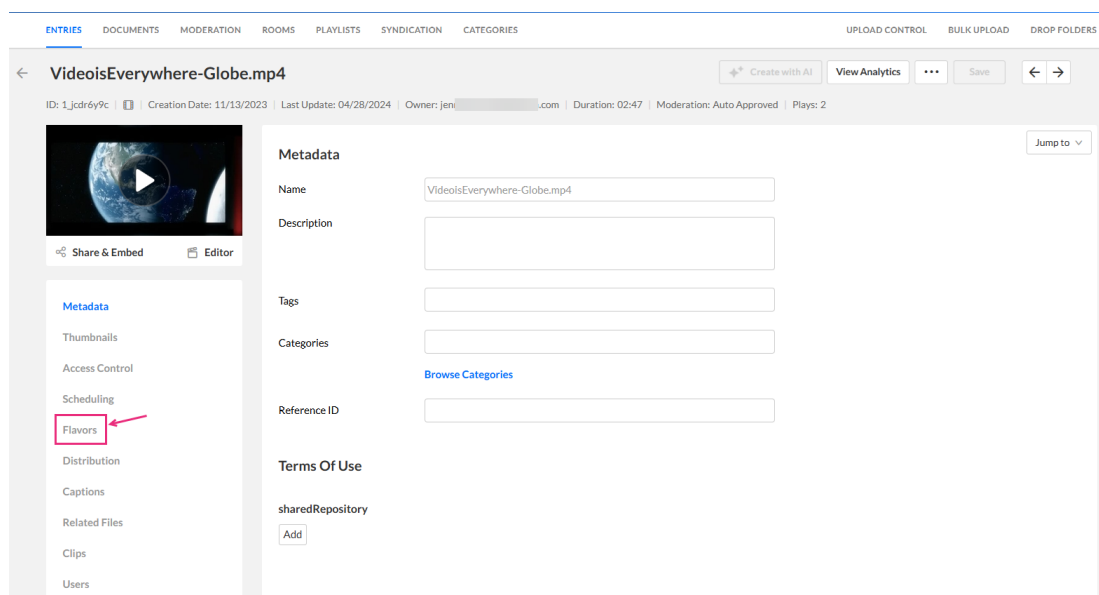

2. Click on the entry.

The entry details page displays.

3. Click the **Flavors** tab.

4. The **Flavors** section displays.
5. Select the replacement method: **Upload from Desktop**, **Import from URL**, or

Match from Drop Folder (to learn more about these methods, see [Upload Media via KMC and Drop folders Service for Content Ingestion](#).)

Flavors

✓ All required Transcoding Flavors are available. Entry is ready for publishing.

Replace Video

Upload from Desktop | Import from URL | **Match from Drop Folder**

Flavor	Asset ID	Format	Codec	Bitrate (kbps)	Dimensions	Size (KB)	Status	Tag
Source	1_t98ul6yg	mp4	avc1	921	640 x 360	18801	OK	sol
Basic/Small - ...	1_g8uq4chc	mp4	avc1	459	640 x 360	9371	OK	mo
Basic/Small - ...	1_ub69mo1r	mp4	avc1	598	640 x 360	12216	OK	mo

After you trigger the action, an alert appears: *Video replacement is in progress.*

Match from Drop Folder

Flavor	Asset ID	Format	Codec	Bitrate (k...	Dimensions	Size (KB)	Status	Tags
Source	1_t98ul6yg	mp4	avc1	921	640 x 360	18801	OK	souro
Basic/Small - ...	1_g8uq4chc	mp4	avc1	459	640 x 360	9371	OK	mobil
Basic/Small - ...	1_ub69mo1r	mp4	avc1	598	640 x 360	12216	OK	mobil

When you trim an entry, you trigger a similar process that replaces existing flavors with the trimmed version. See [Kaltura Video Editing Tools](#) to learn about trimming videos.

Replace Zoom recordings

1. Click the **Upload from Desktop** button.
(The default action opens your computer files. If this happens, click Cancel.)
The **Update Video** window displays.
2. From the **Transcoding profile** drop-down menu, choose **Zoom_Recordings**.

Update Video

Transcoding profile	Default ^	+ Add File
File name	<div> <div>Default</div> <div>source only</div> <div>Zoom_Recordings</div> <div>Msft_Teams_Recordings</div> <div>Kaltura_Meeting_Recordings</div> <div>Capture_Tools_Content</div> </div>	Size

upload

3. Click **+ Add File**.
