

Replace an entry via KMC

Last Modified on 01/26/2025 11:12 pm IST

 This article is designated for administrators.

About

You have the option to swap out media content without altering the entry's metadata, ID or analytics. When replacing an entry, all transcoding flavors are updated together to prevent any errors between the old and new versions. Only video entries can be replaced.

Replace media

1. Log into KMC and under the **Entries** tab, locate the entry you want to replace.

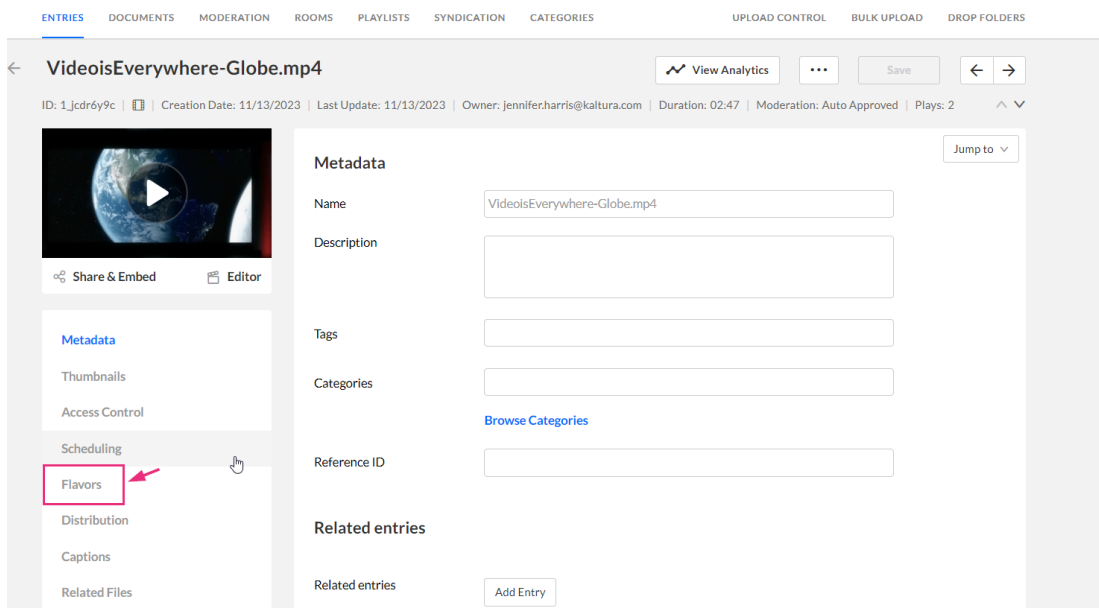

2. Click on the entry.

The entry details page displays.

3. Click the **Flavors** tab.

- The **Flavors** section displays.
- Select the replacement method: **Upload from Desktop**, **Import from URL**, or **Match from Drop Folder** (to learn more about these methods, see [Upload Media via KMC and Drop folders Service for Content Ingestion.](#))

Replace Video

Upload from Desktop

Import from URL

Match from Drop Folder

Flavor	Asset ID	Format	Codec	Bitrate (k...	Dimensions	Size (KB)	Status	Tags	
Source	1_t98ul6yg	mp4	avc1	921	640 x 360	18801	OK	source,
Basic/Small - ...	1_g8uq4chc	mp4	avc1	459	640 x 360	9371	OK	mobile,
Basic/Small - ...	1_ub69mo1r	mp4	avc1	598	640 x 360	12216	OK	mobile,

When you trim an entry, you trigger a similar process that replaces existing flavors with the trimmed version. See [Kaltura Video Editing Tools](#) to learn about trimming videos.

Replace Zoom recordings

1. Click the **Upload from Desktop** button.
(The default action opens your computer files. If this happens, click Cancel.)
The **Update Video** window displays.
2. From the **Transcoding profile** drop-down menu, choose **Zoom_Recordings**.

Update Video

Transcoding profile: Default + Add File

File name	Size
Default	✓
source only	
Zoom_Recordings	
Msft_Teams_Recordings	
Kaltura_Meeting_Recordings	
Capture_Tools_Content	

upload

Cancel Upload

3. Click **+ Add File**.

Update Video

Transcoding profile

File name	Size
No files to upload	

4. Select the file.
5. Click **Upload**.
