

# How to select a video to play in MediaSpace

Last Modified on 03/20/2020 3:53 pm IST

## To select a video to play

In My Media, click a video thumbnail to display the video in the media player. Related videos are displayed next to the media player.

The screenshot displays a video player interface. The main video player shows a man in a suit speaking, with a play button overlay. Below the video, the title "How to Leverage Change - Quiz" is visible, along with a timestamp of 0:00 / 0:59 and a "Video Quiz" label. To the right, a "Related Media" section contains three video thumbnails: the first is a smaller version of the main video, the second is a "webcasting" logo with "Test XYZ" below it, and the third is a man speaking with the title "Massimo Banzi: How Arduino is open".
