

Media page in Content Hubs

Last Modified on 05/22/2026 1:19 pm IDT

 This article is designated for all users.

About

Kaltura's media page is designed to make your videos the main focus. With a clean, intuitive layout, it's so easy to find and enjoy content.

Access the media page

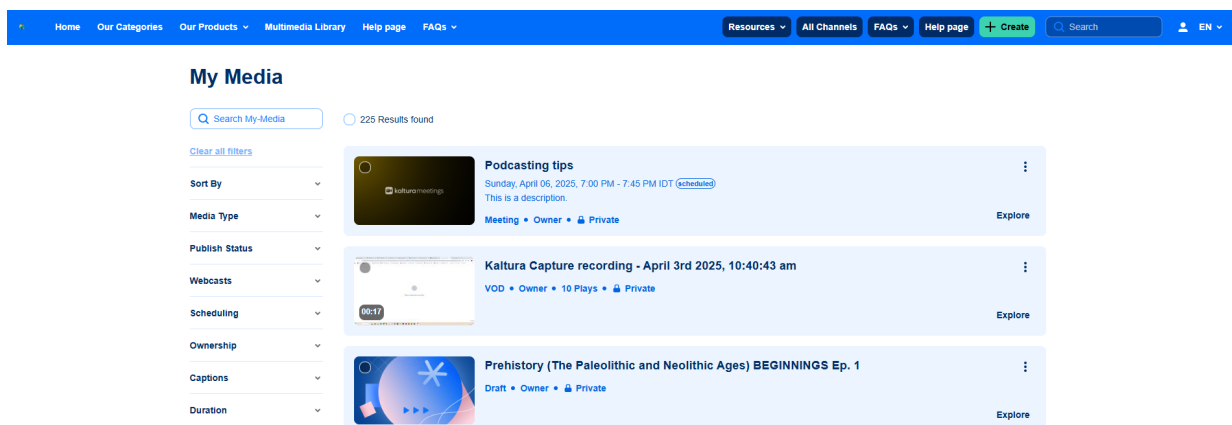

1. From your user menu, select **My Media**.

Most popular videos

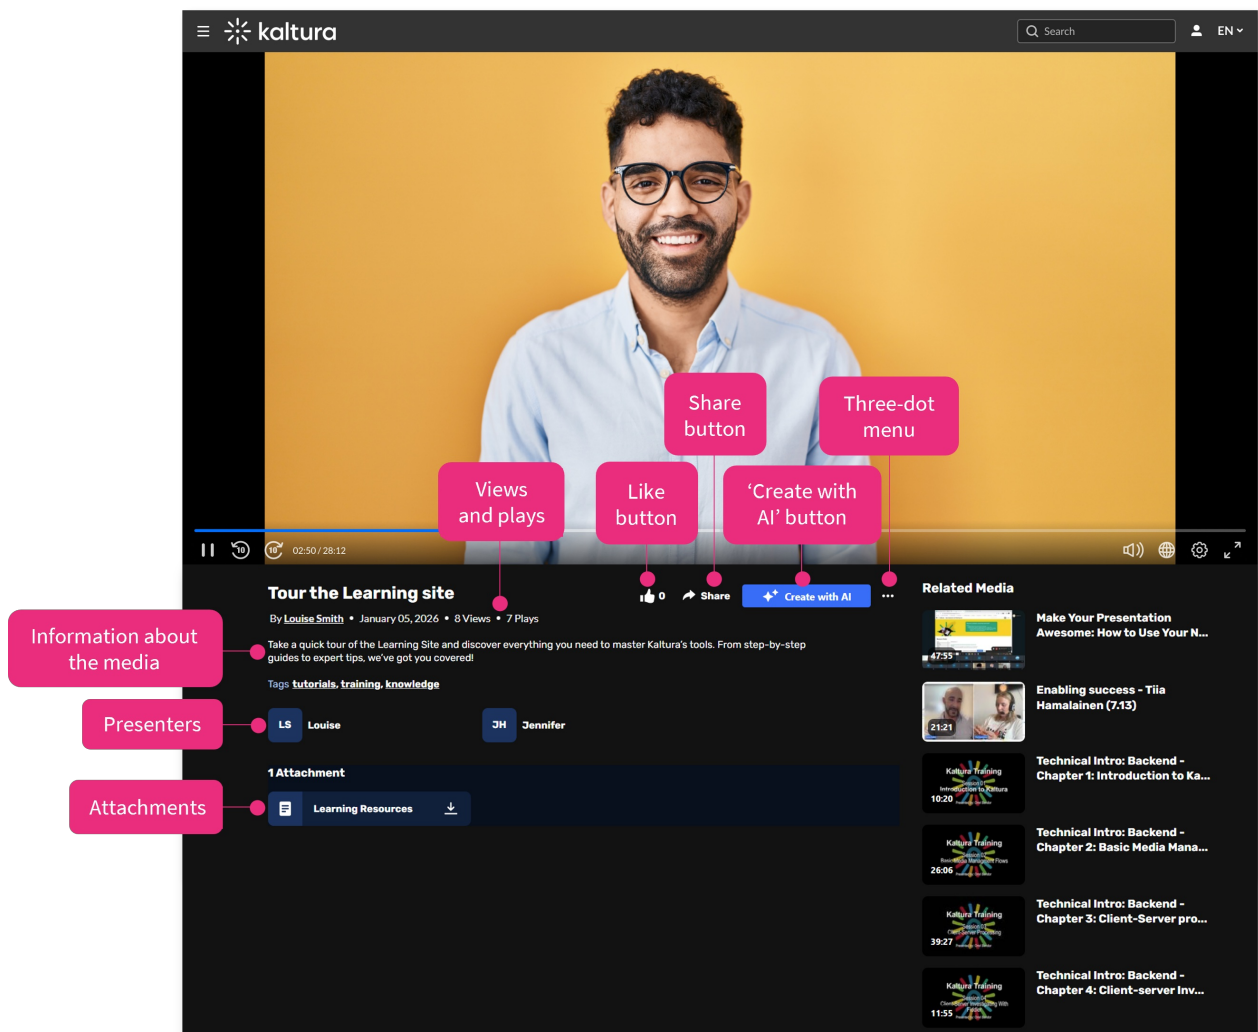

2. The 'My Media' page displays.

3. Click the desired entry's thumbnail or title to open the media page.

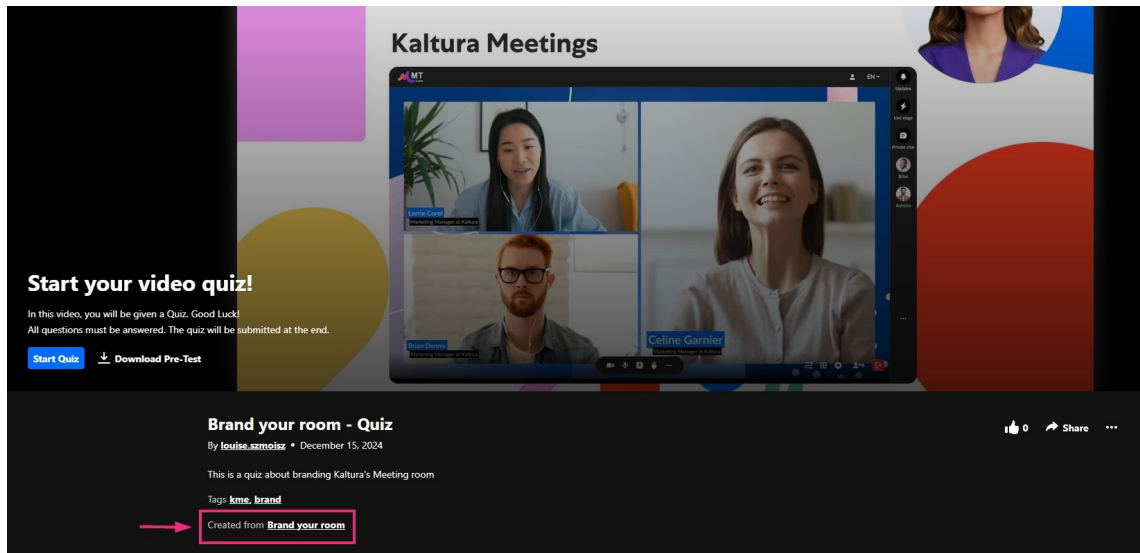

Key features of the media page

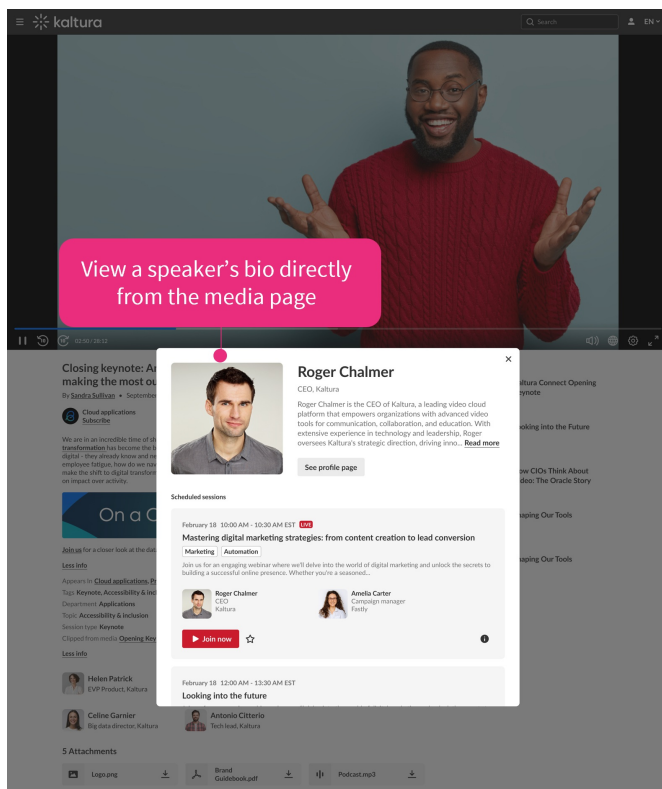

- **Views and plays** - A view is counted when the media page is loaded. A play is counted when someone clicks the Play button. (Which indicators are shown depends on the [Application module](#) settings).
- **Like** - Users can rate the video by clicking the "like" button.
- **Share** - Clicking on Share will open a pop-up window with options to link to media page, embed or share via social media. See our article [Share and Embed Media](#) for more information.
- **'Create with AI'** - Click to access [Content Lab](#) functionality. This button will be active and enabled only on applicable entries. See [Create highlight clips with AI](#),

Create quizzes with AI, Create a summary and chapters with AI, and Enrich metadata with AI for more information.

- **Three-dot menu** - See [Three-dot menu](#) below.
- **Created from** - This feature (shown in image below) displays the original content from which media was created, such as clips or quizzes.

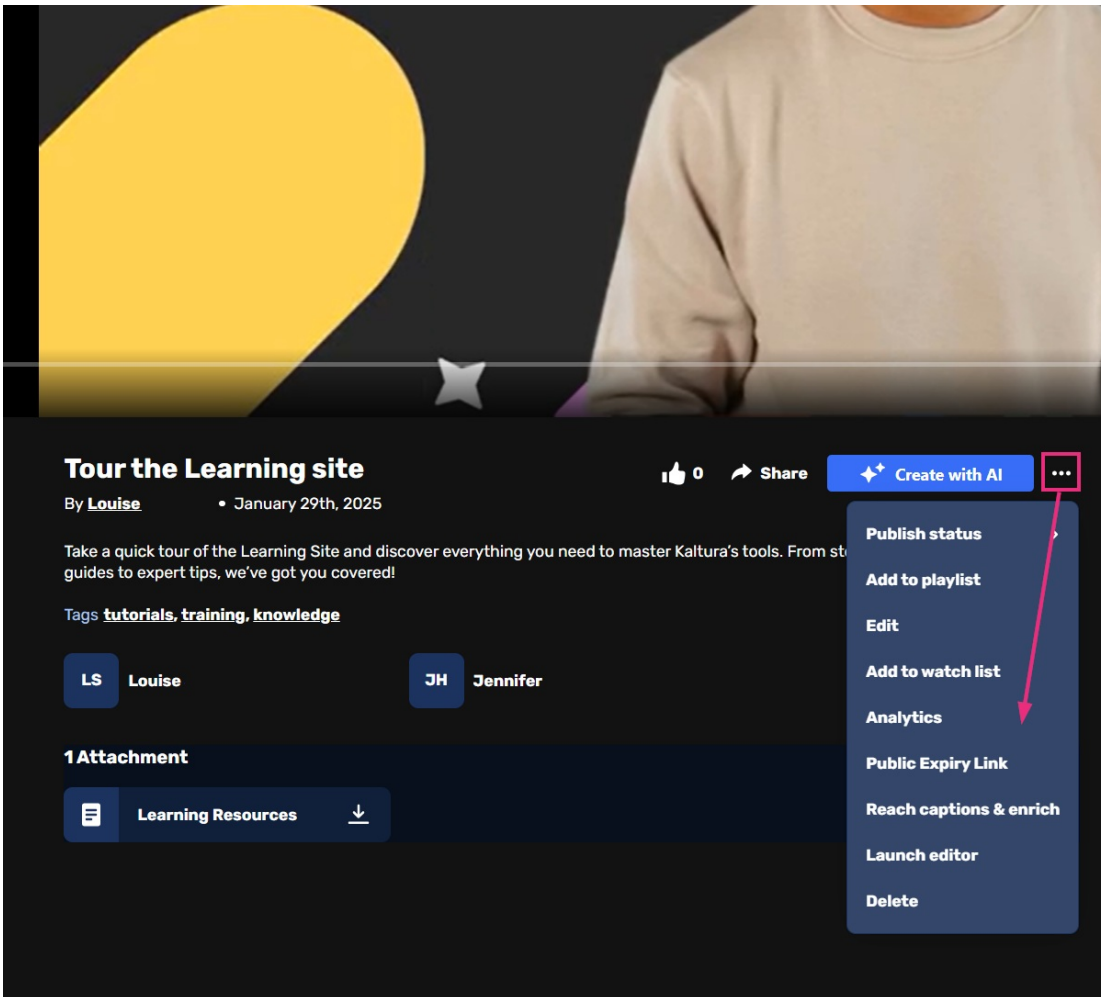

- **Viewing context with option to subscribe** - This shows where the entry is being viewed from. Note, the context will only be indicated if you came to the media through a channel. It will always display if this media was published to the one channel only. You can click **Subscribe** to subscribe to that channel if the channel manager has provided that option. See our article [Channel subscriptions](#) for more information.
- **Information about the entry** - All the information and metadata about the entry.
- **Presenters** - Media owners can easily add presenters / speakers to media entries from the [Edit Media](#) page. Users can simply click on a speaker's icon to view a pop-up with their bio (as shown in image below), without needing to navigate away from the page. To learn how to add presenters, see our article [Add speakers to media](#).

- **Attachments** - Hover over the attachment and a tooltip will show the title of the media, file name, description and file size.

Three-dot menu

Click the **three dots** under the player to open the menu. The menu gives you the following options:

Your menu options may look slightly different depending on what has been enabled in your account. If there is something missing, please contact your account administrator to have it enabled.

- **Publish status** - You can select in which channel / gallery the entry will be published. Once you publish the media in a channel or category, the name will appear on the media page. To learn more about publishing media, read our article [Publish media](#).
- **Download** - Click to download a certain flavor of the media to your desktop. See [Download media](#) for more information.
- **Add to Playlist** - Click to add the entry to another playlist. Read [Add to a playlist](#) for more information.
- **Edit** - Click to edit your entry. See our article [Edit media](#) for more information.

- **Add to Watch List** - Click to add the entry to your personal watch list. Text will change from “Add to watch list” to “Remove from watch list” according to your status.
 - **Analytics** - Click to access the VOD analytics dashboard and get an overview of the media entry. See our article [VOD analytics](#) for more information.
 - **Reach Captions & Enrich** - Select to order captions and enrichment services. See our article [Order captions and enrichment services](#) for media for more information.
 - **Launch Editor** - Click to launch the Kaltura Video Editor. See [Overview of Kaltura's video editing tools](#) for more information.
 - **Delete** - Click to delete the entry and move it to the Recycle Bin. Check out our article [Restore deleted items from the Recycle Bin](#) for more information.
