# Media page

👥 **This article is designated for all users.**

Introducing Kaltura's new media page in MediaSpace Video Portal – where videos shine center stage and simplicity meets sophistication! With a sleek and intuitive design, our revamped media page puts your favorite videos front and center, ensuring a captivating and rewarding user experience.

💡 If your media page doesn't look like the one below, you may need to enable our theming module. Visit our article Getting started with the Theming module to get your page looking just right.

Let's check out some of the new and improved features.

## Key features

- **Like**- Users can rate the video by clicking the "like" button.
- **Share** - Clicking on Share will open a pop-up window with options to link to media page, embed or share via social media. See our article Share and Embed Media for more information.
- **Comments** - Users can comments on the video at the bottom of the screen.

> ⚠ The comments feature isn't currently available, but will be very soon.

- **Actions menu** - Click the three dots to open the Actions menu. For more information, see our article Actions Menu.
- **Viewing context with option to subscribe** - This shows where the entry is being viewed from. Note, the context will only be indicated if you came to the media through a channel. It will always display if this media was published to the one channel only. You can click **Subscribe** to subscribe to that channel if the channel manager has provided that option. See our article Channel subscriptions for more information.
- **Information about the entry** - All the information and metadata about the entry. Click **More Info** to expand the text.
- **Presenters** -  Media owners can add users to show as presenters on media entries. Speakers can be added from the edit media page. Check out our article Add presenters to media page.
- **Attachments** - Hover over the attachment and a tooltip will show the title of the media, file name, description and file size.
