

How to resize the player's aspect ratio to display captions properly?

1. Go to the Studio tab in the KMC (Kaltura Management Console) and select Universal Studio.
 2. Select the player you want to resize.
 3. In the Universal Studio, click the Basic Display tab.
 4. Select the Aspect Ratio to change the aspect ratio of the video itself 16:9.
 5. In the Universal Studio, select the Look and Feel tab and make sure that the Closed Captions option is enabled.
 6. Configure the Closed Captions settings.
 7. Click Save Player Settings.
