Kaltura Webcasting - Set the Webcasting Event Thumbnail

Last Modified on 06/29/2026 1:49 pm IDT

> **Legacy notice**
> If you're setting up a new event, we recommend using **Live Studio**, our modernized live event experience. See **Introduction to Live Studio** for more information. If your organization is still using the legacy webcasting product, this article still applies.

Use the Thumbnail tab to determine the thumbnail in the Webcast event Page. The Event page displays a thumbnail for the event. The first slide of the presentation you uploaded for the event is used as the default thumbnail. When you upload a thumbnail from your desktop it becomes the default thumbnail.

1. Select **My Media** and then click **Edit** next to the entry you want to add a thumbnail to.
2. In the Edit Event window select the Thumbnails tab.
3. Click **Upload Thumbnail**.
   The supported file formats are image files such as JPG, GIF, TIFF, PNG etc.
4. Upload a file from your desktop and click Open.

To download/save a thumbnail

1. Select **My Media** and then click **Edit** next to the entry that you want to download the thumbnail from.
2. In the Edit Event window select the Thumbnails tab.
3. Click **Download**.
4. Save your image.
