

# Creating a Webcasting Announcement

Announcements provide the ability to send a message to all attendees. Only Producers/Moderators can send announcements.

## Producer's View

## Attendee's View

The screenshot shows a Kaltura Webcasting interface. On the left, there is a video player with the Kaltura logo (a colorful sun icon) and the text "Kaltura open source video". The main area is a dark teal background with the text "Kaltura Webcasting". In the bottom right corner, there is a small video feed of a woman with short red hair wearing a red scarf and a dark jacket. At the top right, there is a chat window with a blue header "Type your question here" and a green announcement box that says "This is the first announcement . We will begin in one minute." with a "Now" button. The video player controls at the bottom show a play button, a volume icon, the time "11:30", and a "LIVE" indicator.

This is a close-up of the chat and announcement area. It features a blue header with the text "Type your question here" and a "Cancel | Send" button. Below this is a green announcement box containing the text "This is the first announcement . We will begin in one minute." and a "Now" button. The word "Announcement" is also visible next to a speaker icon.
