

Setting the Home Page - Kaltura MediaSpace

MediaSpace provides a home page module that allows you to curate and define specific content that you would like to feature in the landing page of your MediaSpace site. The home can contain a single large carousel and as many additional lists of featured content. This section describes how to configure your home page and set your MediaSpace site to display your home page as your landing page.

Configuring your Home Page

To configure your home page content

1. On the Configuration Management panel of the Kaltura MediaSpace Administration Area, open the *Home* tab.
2. Under *enabled*, select **Yes**.
3. If you would like to use a carousel control: Select *Yes* for **carouselEnabled**.
4. In the *carousel* section, Select the type of playlist to load in the carousel.

The options are:

- Most Recent – All published media by creation date
- Most Viewed – All published media by number of views
- Most Liked – All published media by number of likes
- Most Commented – All published media by number of comments
- Custom Playlist – This option will allow you to enter any manual or rule based playlist created via the KMC. When selecting this option, you can enter the playlist ID in the additional **playlistId** field. Refer to the article [Creating and Configuring Playlists](#) to learn how to create custom playlists.

5. **carouselBg** – Defines the hex color code for letterboxing for cases that the thumbnail that is displayed doesn't fill the entire carousel
6. To add additional lists in the home page, in the *lists* section, click **Add "lists"**. Repeat these actions for each list to feature in the home page. For each list you can define the following:
 - a. Select the **type** of playlist to load in the carousel. The options are:
 - a. Most Recent – All published media by creation date
 - b. Most Viewed – All published media by number of views
 - c. Most Liked – All published media by number of likes
 - d. Most Commented – All published media by number of comments
 - e. Custom Playlist – This option will allow you to enter any manual or rule based playlist created via the KMC. When selecting this option, you can enter the playlist ID in the additional **playlistId** field. You can refer to the [Kaltura Management Console \(KMC\) User Manual](#) to learn how to create custom playlists
 - b. **name** – The title that is displayed for the list in the home page.
7. Click **Save**.

To configure your home page as your landing page

1. Make sure the home page is configured and enabled as in the [instructions](#) in the Mediaspace Setup Guide.
2. Go to the *Navigation* tab.
3. Click **Add "pre"**
4. Add a:
 - a. **type:** *Link*
 - b. **name:** *Home* (or any other textual description that will appear in the navigation panel for your home page.)
 - c. **value:** */home*

pre

Add items to the beginning of the main menu, before the categories. MediaSpace displays the items in the order you define here. The first 'pre' item must be a 'playlist' type.

1 **DELETE**

type Select one of the options: Playlist, My Media, My Playlists, Link, Category, Entry Id, or Channels Page

name Enter the label for the menu item. The label is displayed in the main navigation bar.

value Enter the menu item's playlist ID or URL.

sameWindow Select whether link should open in new window (target = _blank) or same window. Applied only to external links (absolute URLs)

[+ Add "pre"](#)

5. Click **Save**.

NOTE: The home page must be the first item (top one) in your “pre” navigation items to function as the landing page of the site.
