Enable Kaltura Video Quiz gradebook sync in Blackboard

Content updated: 08/20/2019

This article is designated for administrators.

About

This article explains how to enable gradebook sync for **Kaltura Video Quizzes in Blackboard**.

When a video quiz is added to a Blackboard assignment through the **Content Market**, students' quiz results are automatically sent to the Blackboard gradebook.

Before you start

Make sure the Kaltura LMS Extensions LTI 1.3 integration is installed and configured in Blackboard. For setup instructions, see Set up the Kaltura LMS Extensions LTI 1.3 integration in Blackboard.

Setup

Enable gradebook support in Kaltura

1. Sign in to the KAF Configuration Management console.
2. Search for and open the **Ltigrading** module.
3. Set `enabled` to **Yes**.
4. Click **Save**.

Enable the Kaltura Video Quiz tool in Blackboard

1. In Blackboard, navigate to **System Admin > Tools**.
2. Locate **Kaltura Video Quiz Tool**, and then enable it.

After both options are enabled, faculty can add graded video quizzes to Blackboard assignments.

To ensure that grades sync correctly, add the video quiz to a Blackboard assignment using the **Kaltura Video Quiz** tool in the **Content Market**. A quiz added through the regular **Add Content** editor is not connected to the Blackboard gradebook.
