[collapsed title="Browseandembed"]

Browseandembed

The Browseandembed KAF module is used to enable and configure the Browse, Search and Embed tool in the LMS. This tool is available within the Rich-text (if installed) editor wherever it is available for example:

- Assignments
- Forums
- Announcements

Sakai: This tool is available within the CK editor wherever it is available.

[The BSE Feature for Administrator's Guide](#) includes a comprehensive description on how to configure the Browseandembed module.

For additional information for users, see [Using the Browse Search and Embed \(BSE\) Feature](#).

Fields	Description
enabled	Enable the Browseandembed module.
returnUriMethod	Which method to use for the return url action. Get or Post.

Fields	Description
allowEmbedFromMultipleCourses	Defines how many categories to include when embedding media. When set to Yes, users will be able to embed videos from Media Galleries of all the courses they have access to. Set to No if you want to limit users to the Media Gallery of the current course only.
filterTypeAttribute	custom_filter_type* The LTI attribute the get the filter type from.
disableAddNewAttribute	custom_disable_add_new*. The LTI attribute the get the disable-add-new from.
enableNewBSEUI	This field enables the new Browse and Embed UI and functionality. Select v3 for the latest version.
v2	The following parameters are for configuring the Browseandembed module for KAF versions previous to 5.82.
BSEPlayerID	The default player for embedded media. If left empty the KAF main player will be used. Media types other than video will load with players set in the dedicated modules (e.g. audioEntry, imageEntry, Quiz, Kwebcast).
minimalBSERole	Minimal KMS/KAF role allowing browsing and embedding media.

Fields embedSizes	Define sizes that can be used for embedded players. Define the player size in the following format: {width}x{height} Description
enableAssignmentSubmission	This feature enables an additional pop up screen when selecting media in Browse, Search and Embed to verify if the user is submitting an assignment. If confirmed, the selected entry will be cloned under a different user name to prevent editing and deletion
assignmentSubmissionText	Determines the text that will appear on the pop up message when submitting an assignment. In case left empty, the default message will appear.
assignmentSubmissionMaxRole	This sets the highest role level which will see the pop up upon selecting an entry in Browse, Search and Embed.
contentItemReturnUriAttr	The LTI attribute that holds the content-item return URL.
sendCimLineItem	
v3	The following parameters are for configuring the Browseand embed module for KAF version 5.82 and forward.

Fields	Description
EmbedSettingsButton	Select 'Show' to present the Embed Settings button, allowing users to change the embed settings before embedding media.
BSEPlayerId	The default player for embedded media. If left empty, the KAF main player will be used. Media types other than video will load with players set in the dedicated modules (e.g. audioEntry, imageEntry, Quiz, kwebcast).
enableAssignmentSubmission	This feature enables an additional pop up screen when selecting media in Browse, Search and Embed to verify if the user is submitting an assignment. If confirmed, the selected entry will be cloned under a different user name to prevent editing and deletion.
assignmentSubmissionText	Determines the text that will appear on the pop up message when submitting an assignment. In case left empty, the default message will appear.
assignmentSubmissionMaxRole	This sets the highest role level which will see the pop up upon selecting an entry in Browse, Search and Embed.
contentItemReturnUrlAttr	The LTI attribute that holds the content-item return url.

sendCimLineItem Fields	Never Description When filtering for quiz For any quiz
