This article is designated for all users.

About

KMS GO is Kaltura's mobile app, offering an intuitive way to watch, create, and engage with media on the move. Enjoy familiar features like content discovery, sharing, offline viewing, and powerful search tools, all in a fully native app.

KMS GO is not accessible to native apps by default. Your KMS administrator must enable the KMS GO app and set it up before you can start using it.

Download KMS GO

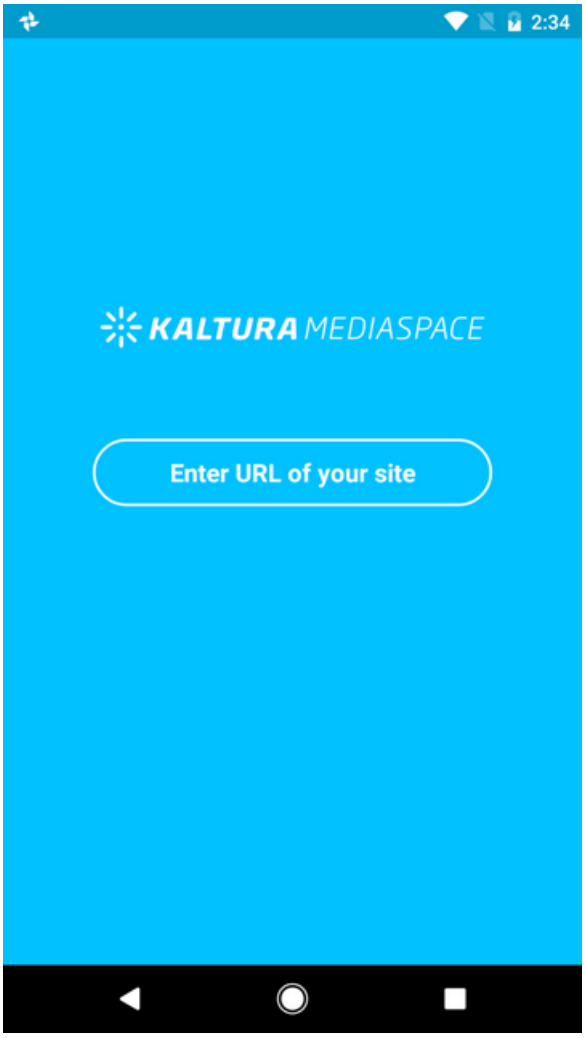

1. Download the Kaltura MediaSpace GO app from Google Play Store.
2. Open the app on your Android device.

Be certain to download the KMS GO app and not the legacy KMS App.

Log into KMS GO

1. Enter your site’s address. Remember to include "https://" before the site address.

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

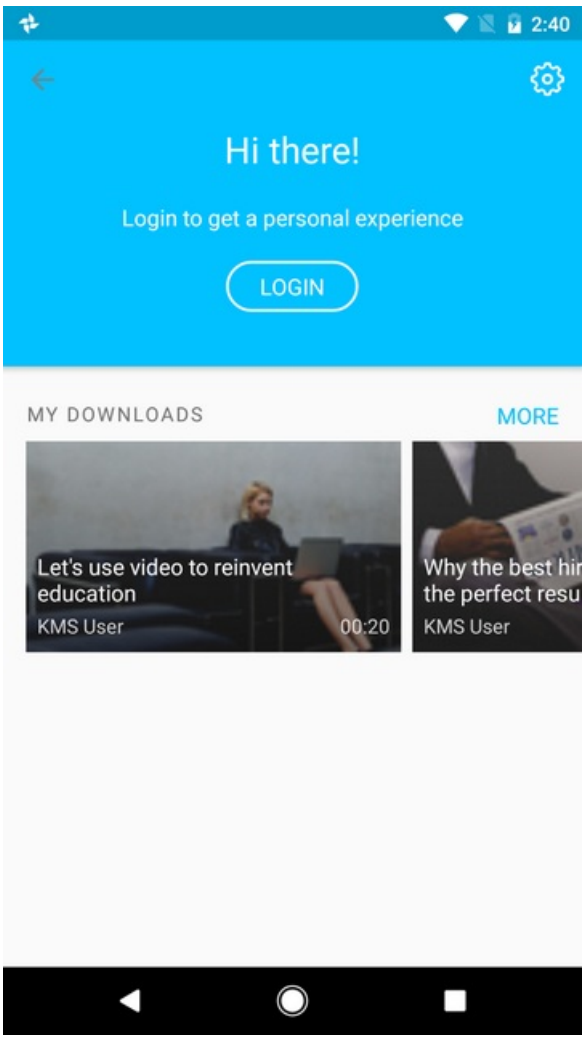

2. Choose between using the app as a guest or logging in for more features.
3. To log in:
   a. Tap the person icon at the top left of the homepage.
   b. Tap LOGIN.
   c. Enter your credentials.

Log into the Kaltura demo site

You might also want to check out the Kaltura demo site.

1. Go to the following URL: https://corporatetube.mediaspace.kaltura.com/
2. Log into “My Page”.

Homepage

The KMS GO homepage is initially displayed with the following:

- The My Page icon – links to your personal area and app settings
- App's main gallery displayed
- Additional galleries
- App bottom navigation bar:
  - Home - returns you to the homepage
  - Inspire me - fun way to get inspired and discover media based on a time frame
  - Search & Browse - Opens the KMS GO powerful search tool and browsing options. For more information, see Searching and Browsing Through Media.

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

The homepage display depends on your KMS administrator’s configuration settings and may be reconfigured.

If you're a KMS admin, check out the Kaltura MediaSpace GO (KMS GO) Mobile Application Admin Guide for customization details and instructions on setting up KMS GO and reconfiguring your homepage.

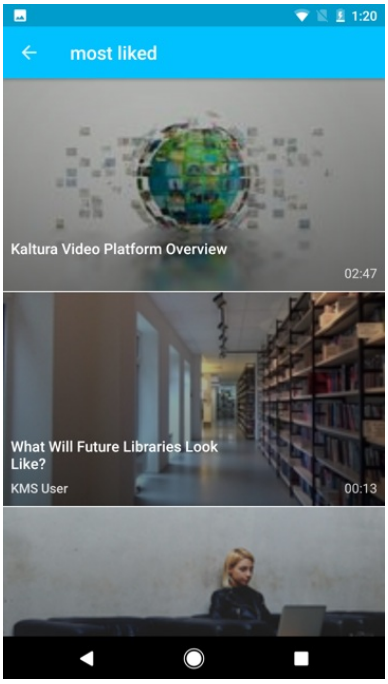

Your homepage may look different from the Kaltura KMS GO demo page.

Media discovery and interaction

Media discovery starts on your KMS GO homepage. You can browse the gallery by swiping horizontally or tapping on a gallery name for vertical scrolling. The following

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

image shows an example of the vertical display of selected media item on your gallery.

While in vertical view, swipe horizontally to access media quick actions. The available quick actions are:

- Download
- Like
- Share

You can also comment on media items. See Commenting on Media.

Download media

You can download media (if enabled by your administrator) from a gallery's vertical view or a media page. Downloaded media displays on your device and in the My Downloads section on your homepage.

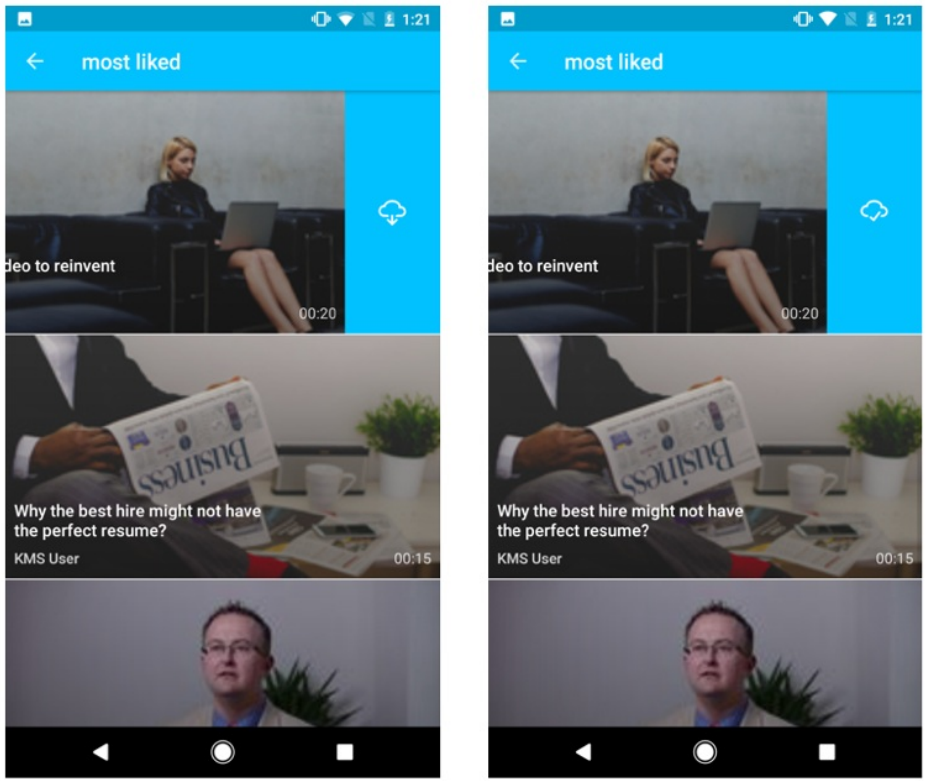

> ⚠
> Please note that when you download media using KMS GO, the file stays within the app and cannot be accessed or played outside of KMS GO's native player.

On the vertical gallery view, you can use the following quick actions:

- Swipe the selected media to the left.
- Click the download icon.
- Abort downloading by tapping on the download icon (note that the icon has an “x” in it).
