# Start a scheduled recording early

Content updated: 08/20/2019

This article is designated for all users.

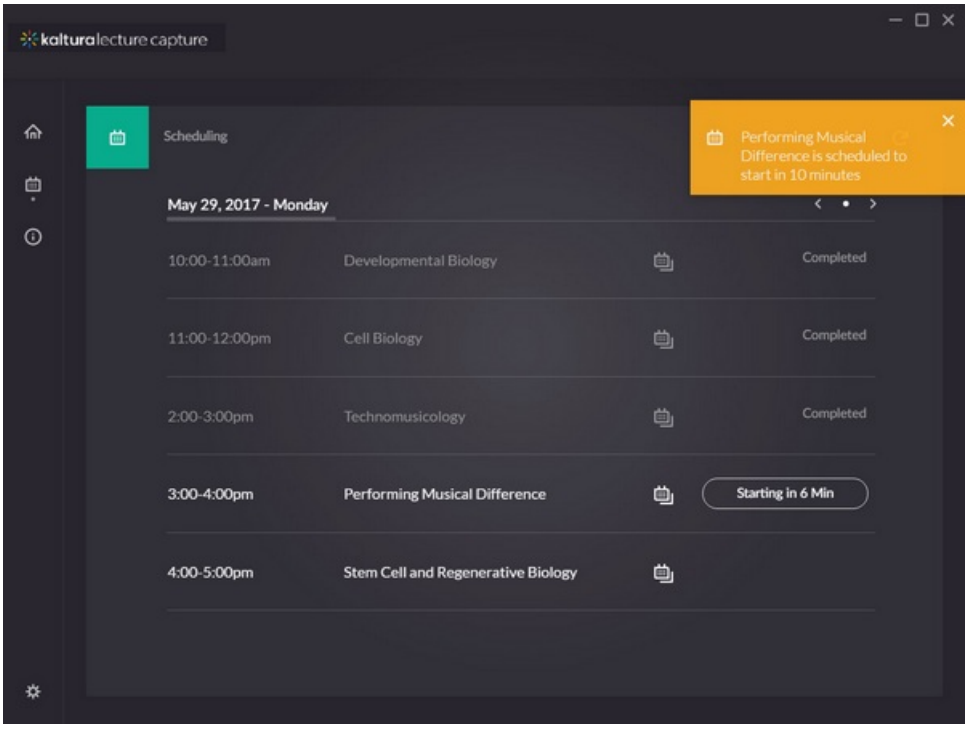

## About

You can start a scheduled recording up to 10 minutes before its scheduled start time if there are no scheduling conflicts.

If the scheduled recording is a live event, starting the recording early also starts the live broadcast early.

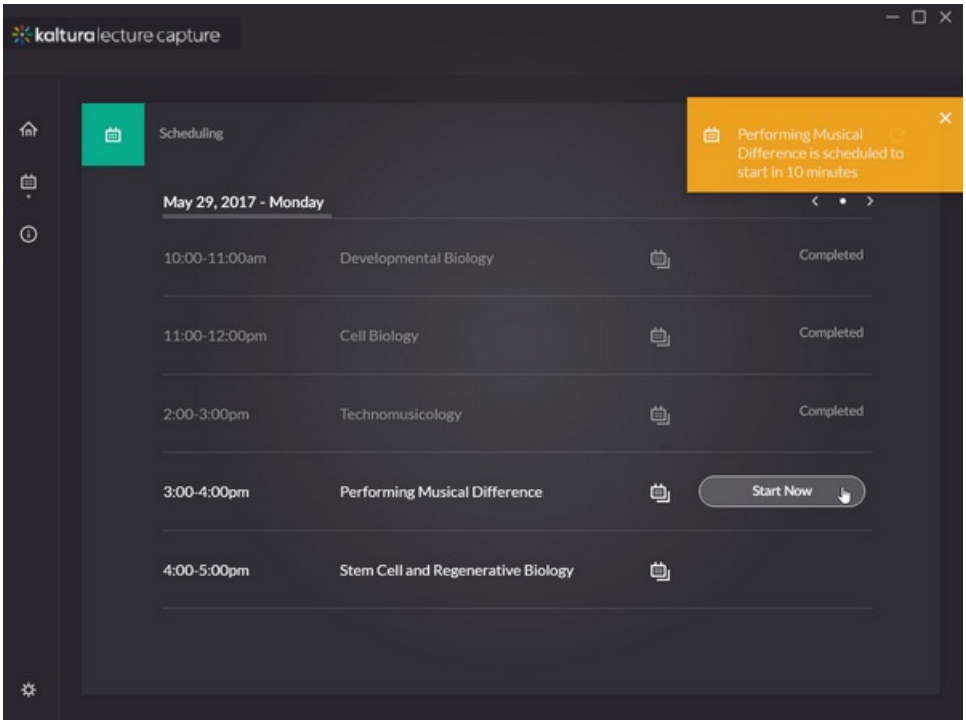

## Start the recording early

1. Click the **Scheduling** tab. A countdown appears when the scheduled recording is available to start early.

2. Hover over the countdown, then click **Start Now**.
