

Starting a Scheduled Recording Earlier

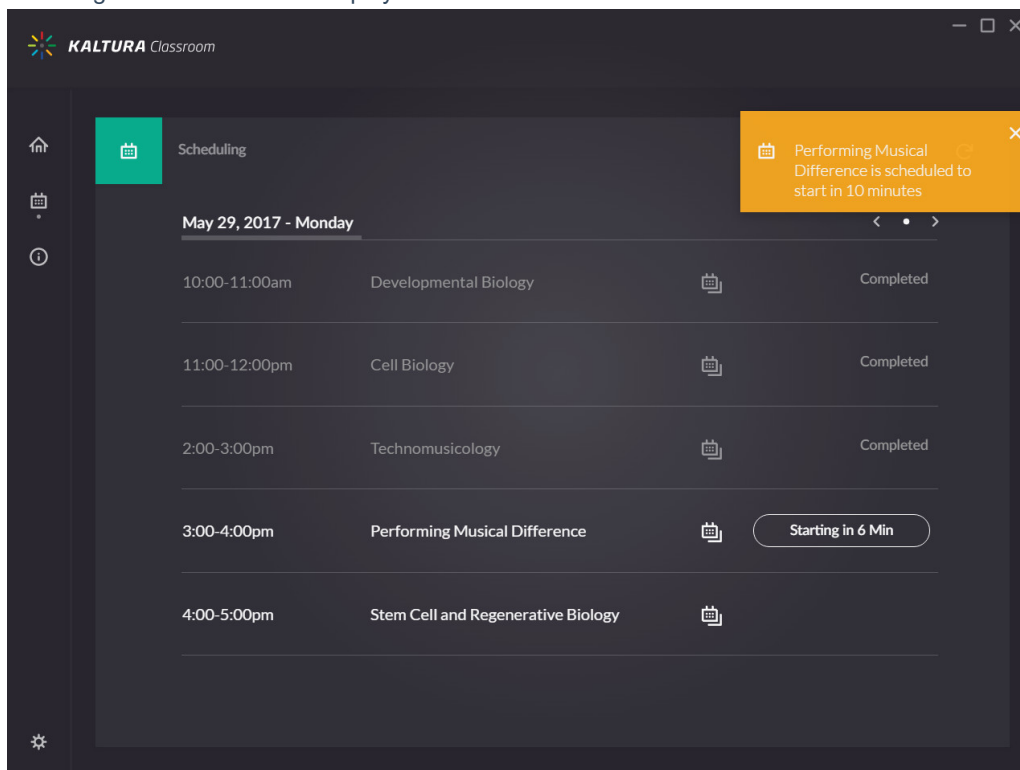

Last Modified on 06/14/2020 9:54 pm IDT

If there is no conflict, you can choose to start the scheduled recording up to 10 minutes earlier than the recording is scheduled to start.

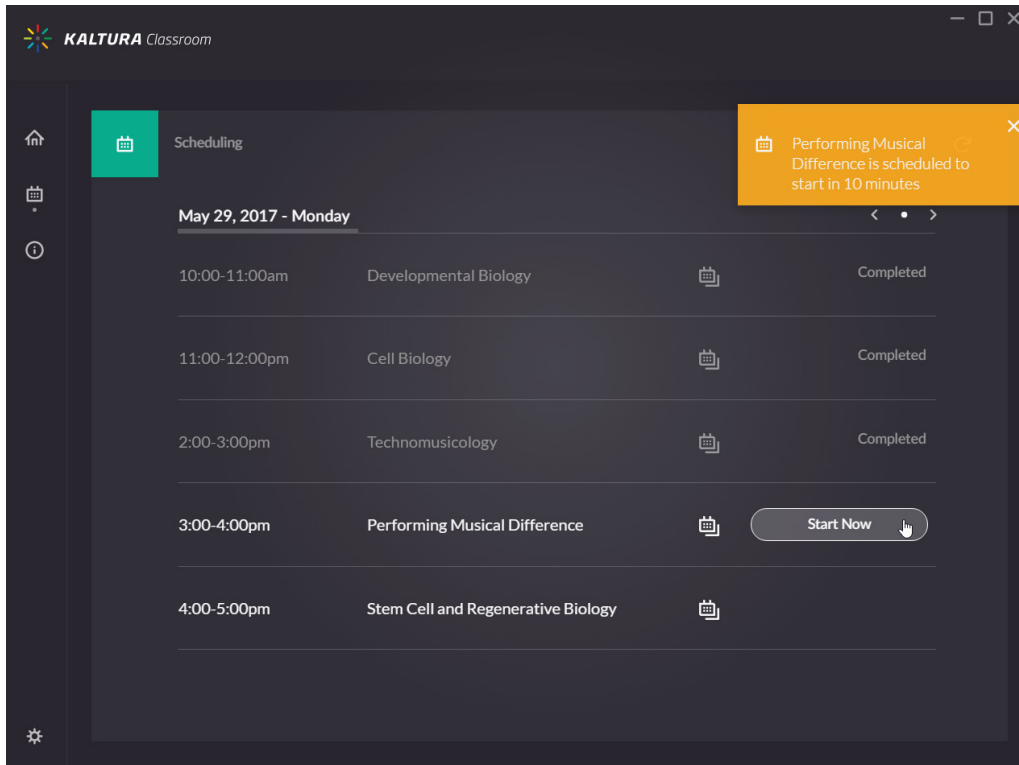

Note: If the scheduled event is a Live Event the live broadcast will also start earlier.

1. Go to the Scheduling tab

A message and countdown is displayed.

2. Hover over the countdown and click Start Now.

3. Begin recording.
