

CSS File for Kaltura Video Quiz Customization of Default Strings

Last Modified on 09/26/2019 12:56 pm IDT

The following is the CSS file that you can use to edit strings and customize the Kaltura Video Quiz (VQ) default text settings.

For ease of use, copy and paste the fields you want to modify from the following CSS file into your CSS file.

Follow the instructions for uploading the CSS file [here](#).

```
/* Main background image*/
.videoHolder .screen.quiz {
  background-image: ;
}
/* Color of left footer text */
.ivqContainer .ftr-left {
  color: #;
}
/* Buttons in welcome screen and completed screen*/
.ivqContainer .confirm-box,
.ivqContainer .button-box-attr {
  border-radius: 0;
  background-color: #;
  color: #;
}
/* Buttons hover in welcome screen and completed screen*/
.ivqContainer .confirm-box:hover,
.ivqContainer .button-box-attr:hover {
  color: #;
  background-color: #;
}

/* Quiz download background image */
.ivqContainer .pdf-download-img {
  background-image: ;
}

/* Quiz answer background image */
.ivqContainer .single-answer-box-bk {
  background-image: ;
}

/* Quiz answer background image on hover */
.ivqContainer .single-answer-box-bk:hover:not(.wide) {
  background-image: ;
}
/* focused answer box*/
.ivqContainer .single-answer-box-txt-wide {
  color: #;
}

/* Quiz answer background image when applied */
.ivqContainer .single-answer-box-bk-apply {
  background-image: ;
}

/* Quiz button when applied background image */
```

```
/* Quiz button when applied background image */
.ivqContainer .qApplied {
  background-image: ;
}

/* Quiz button background image */
.ivqContainer .qContinue {
  background-image: ;
}

/* Quiz hint background image */
.ivqContainer .hint-why-box {
  color: #;
  background-image: ;
}

/* Quiz bubble done large */
.ivqContainer .q-box {
  background-image: ;
}

/* Quiz done */
.controlBarContainer .quizDone-cont {
  background-image: ;
}

/* Quiz bubble hover */
.bubble-cont .bubble-un-ans:hover {
  background-image: ;
}
