

Kaltura Video Editing Tools - Frequently Asked Questions (FAQ)

Kaltura Video Editing Tools - Frequently Asked Questions (FAQ)

[collapsed title="Are the Kaltura Video Editing Tools supported in Kaltura Application Framework (KAF) applications?"]

Yes. KAF support is available starting on January 15th as part of Gneral Availability release.

[/collapsed]

[collapsed title="Do the Kaltura Video Editing Tools support clipping and trimming media with Multi-Audio streams?"]

Yes. Visual support is also supported.

[/collapsed]

[collapsed title="Do the Kaltura Video Editing Tools support clipping and trimming media with Multi-Video streams?"]

Yes. Visual support is also supported.

[/collapsed]

[collapsed title="Can I edit a video that is a quiz entry?"]

Yes. Quizzes that have **not** been submitted may be edited including both Save (Trim) and Save a Copy (Clip). You can only Save a Copy (Create a Clip) for quizzes that have been submitted.

[/collapsed]

[collapsed title="Can I keep the legacy Clip and Trim tools?"]

No. The legacy Clip and Trim tools are Flash based and the new tools are Flash-free. Now that the Kaltura Video Editing Tools have been formally released, the legacy Clip and Trim tools are deprecated.

[/collapsed]

[collapsed title="Do the Kaltura Video Editing Tools work with both the new and legacy UIs?"]

Yes.

[/collapsed]

[collapsed title="What about the legacy MediaSpace/KAF Clipper module, and the KeaPlayerID found in the Widgets module?"]

The relevant parameters in these modules were migrated to the new KMS/KAF Editor Module in the Management Console.

[/collapsed]

[collapsed title="What about the Quiz module in the KMS/KAF Management Console – will it remain?"]

Yes, the Quiz Module will remain intact. Note that both the Editor Module and the Quiz Module must be enabled for the Quiz to display in the Kaltura Video Editing Tools. If the Editor module is disabled, the Quiz module will not be displayed.

[/collapsed]

[collapsed title="Will the new Kaltura Video Editing Tools support clipping and trimming media with Captions?"]

Yes. Videos with captions may be edited, however, we recommend that you finish editing the captions on the source before taking any editing actions (both Save and Save a Copy).

Note that for Cielo 24 Captions, after performing a Trim or when accessing the clip of such media, you will no longer be able to edit the captions using the Cielo caption editor. If you are using the Transcript Module, it will not display after the media has been Trimmed, or on a clip.

[/collapsed]

[collapsed title="Will Clipping and Trimming of media with captions work regardless of the caption type that is associated with the entry? For example, does it matter if the caption file is DFXP or SRT?"]

Clipping and Trimming of media with captions is supported for the following caption file types: DFXP, SRT, WEBVTT.
