Kaltura Live Supported Encoders

Kaltura Live can receive RTMP inputs from almost every encoder that supports RTMP. Some of the popular encoders that may be used are:

- [OBS - Open Broadcaster Software](#)
- [Adobe Flash Media Live Encoder \(FMLE\)](#)
- Telestream Wirecast

The following encoders were not tested by Kaltura, but have been used successfully by our customers:

- Elemental Live
- Envivio Muse
- Teradek VidiU/Cube
- NewTek Tricaster
- Matrox Monarch
- Haivision Makito X
- Haivision KB Series

If you have a different encoder, please refer to the [Kaltura Live Stream Requirements Guide](#) and configure your encoder accordingly.
