

Kaltura Capture - The Recording Menu

The Recording Menu

The recording menu includes:

- Stop recording button (white square) - Press to stop the recording. You will be prompted with a confirmation box.

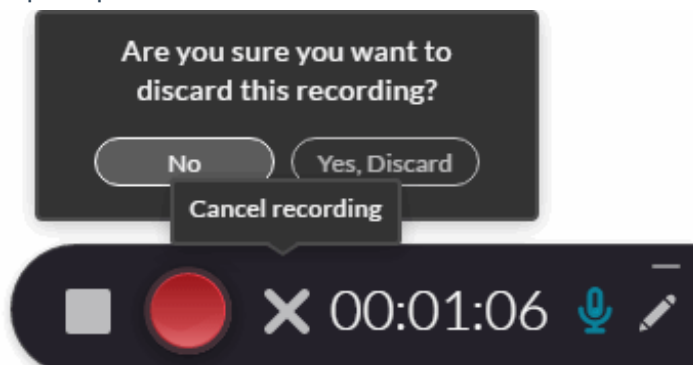

If you choose Yes Stop it, the recording is stopped and the recording details are displayed. The recording tool moves to the new recording state.

If you choose NO, you are returned to the previous recording state (before clicking on the Stop button). For example, if you paused the recording before clicking STOP, you will be returned to the pause state; if you were recording before clicking STOP, you will return to the recording state.

- Pause/Resume recording button (red circle) - You can pause or resume your recording at any time.

- **Cancel recording button** (grey x) - discard recording. Press to cancel the recording. You will be prompted with a confirmation box.

- **Elapsed time**
- **Annotations**- Click on the Pencil icon to open the Annotations options. Use the various tools to annotate. When you are through annotating, click the Pencil icon to return to the cursor mode.

Annotations are available for Screen recordings only. Annotations are disabled if you are recording from your camera only.

The annotations include:

Icon	Action
