

Playlists in KMC

Last Modified on 05/27/2025 7:36 pm IDT

 This article is designated for administrators.

About

A playlist is a curated list of media (videos, audio, images) that can be played in sequence in your Kaltura applications. You can tailor playlists to your preferences, creating lists like "Most Viewed," "Most Recent," or those based on specific attributes like creation dates.

Each playlist is assigned a unique ID number, which is used when adding it to the video portal. Once created, playlists can be assigned to a player in the player studio, providing further customization and control over media presentation. See [Kaltura Player Studio Getting Started](#) for more information.

Playlists can serve as the basis for RSS feeds, content feeds to over-the-top devices, or integrations such as Roku. See [Content Distribution and Syndication](#) for more information.

Access the Playlists page

1. Log into your Kaltura Management Console.
2. Under the **Content** menu, click the **Playlists** tab.

At the top of the page, you can see the number of playlists that you have in your entire account.

Name	ID	Playlist Type	Created On
Leaderboard	1_9nrwv9g3	Manual	11/29/2023 20:34
My Playlist 081411	1_hurqtt92	Manual	11/14/2023 09:08

There are two types of playlists available in the KMC:

Manual Playlist:

In a manual playlist, you personally choose a set of videos to play in a specific order. The entries in this playlist are added manually and remain static, with a maximum limit of 200 entries. Any changes, including additions or removals, require manual

adjustments to ensure the playlist maintains its desired composition.

Rule-Based Playlist:

A rule-based playlist is a dynamic collection of media that automatically updates in response to new content. You can create rules based on order of appearance and various filters, enabling the creation of playlists such as "Most Viewed," "Most Recent," or those with specific criteria like "videos tagged with 'dogs' created in January 2024." When videos matching these rules are uploaded, they are automatically added to the playlist. This playlist has a maximum of 200 entries, extending to 10,000 entries when used in a syndication feed.

Create a manual playlist

1. Click **Add Playlist**.

<input type="checkbox"/>	Name	ID	Playlist Type	Created On	
<input type="checkbox"/>	Leaderboard	1_9nrwv9g3	Manual	11/29/2023 20:34	...
<input type="checkbox"/>	My Playlist 081411	1_hurqtt92	Manual	11/14/2023 09:08	...

The **Add New Playlist** screen displays.

Set the rules

- **Results Limit** - Select the total number of entries you would like to include in the playlist.

- **Order By** - Define the type of content you want in the playlist by using the **Order By** drop-down menu. The following options are available:

- Most Played
- Most Recent
- Highest Rated
- Entry Name

- **Filter Categories** - Use this function to choose which category(ies) will be associated to the playlist.
- **Refine** - You can further narrow your parameters by using the Refine function, for example, if you want your playlist to only have videos that were created between certain dates, you can use the date picker and media filter. For more information about using the filters function, see our article [Search and filter entries](#).

The edit page displays.

3. Click **Content**.

4. Click the **three-dot menu** next to the rule you want to edit.

5. Choose **View/Edit Rule**.

6. Modify the rule settings (see [Set the rules](#) above).

7. Click **Save**.

Delete playlists

Option 1:

1. Check the box next to one or several playlists.
2. A trash can icon appears at the top of the page.

3. Click the trash icon.

A warning message displays: *Are you sure you want to delete the selected playlist> [playlist name]. Please note: this playlist will be permanently deleted from your account.*

4. Click **Yes** (or No).

Option 2:

1. Click the **three-dot menu** next to the desired playlist.
2. Click **Delete**.
