 This article is designated for administrators.

## About

This article contains accessibility information for the following Kaltura products:

- Content Hubs
- Video Portal
- Kaltura Room
- LMS Extensions
- Video Editing Tools
- Player
- Video Quizzes

Kaltura is committed to making its products accessible. As part of these efforts, Kaltura has completed accessibility audits conducted by Level Access and provides VPAT (Voluntary Product Accessibility Template) documentation for the products listed in this article.

Kaltura products support major screen readers. Accessibility testing is conducted using:

- JAWS with Chrome
- NVDA with Firefox
- VoiceOver with Safari

## Kaltura VPAT documents

A VPAT (Voluntary Product Accessibility Template) is a document that evaluates how a product supports accessibility standards, including WCAG and Section 508 requirements.

For more information, see the official VPAT documentation from [Information Technology Industry Council \(ITI\)](#).
