👥 **This article is designated for all users.**

## About

The **+Create** menu provides all the tools you need for creating content and more within the video portal. The menu is divided into three sections, allowing administrators to promote the most frequently used tools or apps to the top for easy access. If you prefer, you can also choose to have all the tools in a single section for a more streamlined experience.
> ℹ️
> The menu and its contents are configured in the Addnew module.

> ℹ️
> These instructions are for Theming users. For non-Theming users, please see our article Add New menu.

## Access the menu

To discover the creation tools available for users in the video portal, click the **+Create** button to display the drop-down menu.

## Tools

⚠️ Depending on what is enabled in your environment, your **+ Create** menu may look slightly different. If there is an option missing, please get in touch with your Kaltura administrator to discuss how to enable it in your environment.
