Share and Embed Media

Share & Embed Media Via The Player

You can share media using the Share icon configured in your v2 Player. Your player must be configured for Sharing.

Select the platform you want to share your media to and post whatever relevant text you want to add.

Share & Embed Media Via Media Page

You can also share a media item, copying the embed code and pasting it to your site.

1. Click a media thumbnail or title.
2. Click the Share button under the media player.
3. On the Link To Media Page tab, select start and end times, then copy the link to the media page. You may now share the link as you wish.

NOTE: If the media is restricted, only authorized users can access the shared media page.

To embed a media item
