About

Captions primarily convey dialogue and other relevant audio information, making videos accessible to individuals who are deaf or hard of hearing, or for viewers who prefer to watch videos without sound. They're typically in the same language as the video, and are important for viewers who are deaf, hard of hearing, or prefer watching without sound.

It's important not to confuse captions with **subtitles**, which are a translation of the video's dialogue into another language. For information on ordering subtitles, check out our article [Ordering Translations](#).

 For a list of common terms related to creating caption and enrichment requests in Kaltura, see our article [REACH terminology](#).

Captioning options

Kaltura provides two options for captioning:

Machine: Also known as ASR, this service achieves an average accuracy of 85% and a turnaround time of up to 2 hours. It enables searchable video content, transcript editing, and resubmission for alignment. The machine engine improves over time and supports custom vocabularies for enhanced accuracy, along with dictionary use. For more information about the dictionary, check out our article [Reach profiles and services](#)

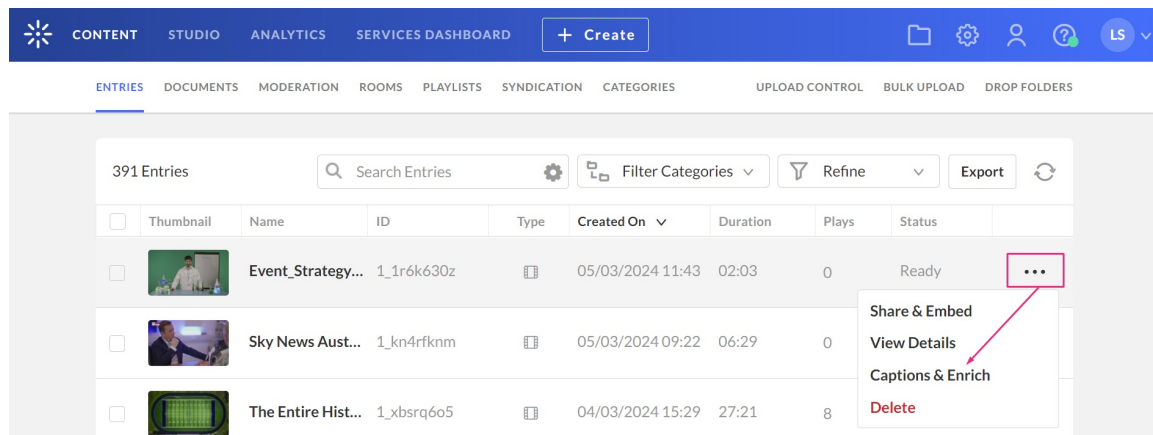

Professional: This service uses human transcribers to provide full-service captioning with 99% accuracy, meeting Closed Captions laws and media standards. Turnaround time varies (3-48 hours) based on your REACH plan. Ideal for public-facing content like marketing, learning, and training videos.

Access the Caption & Enrich service

Single video

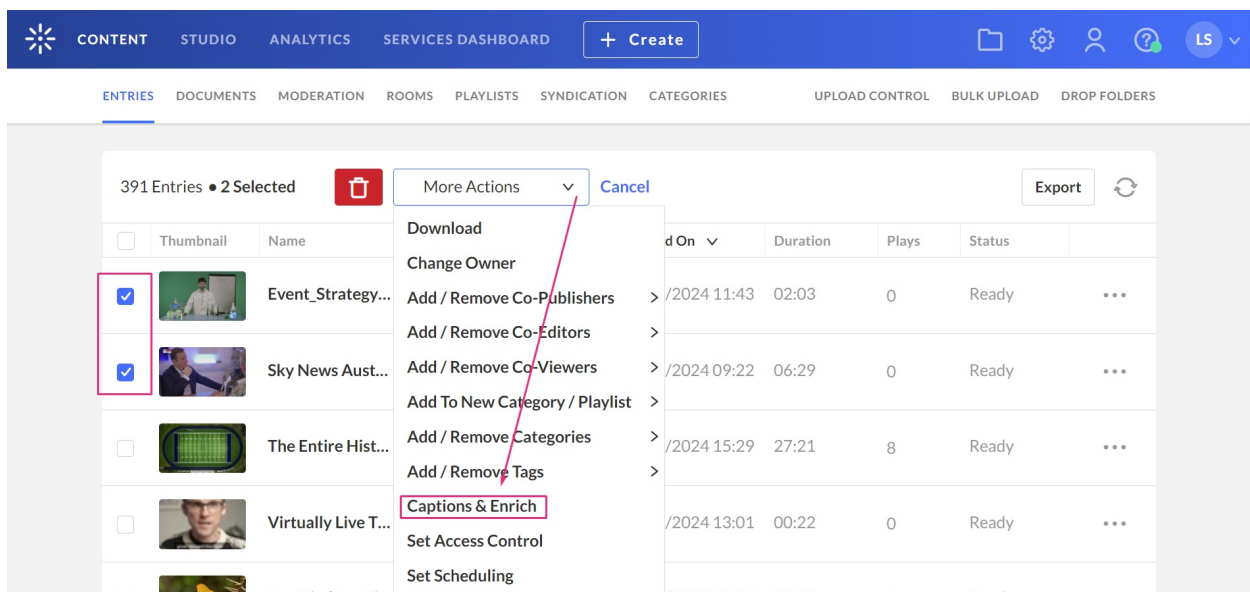

1. Log into your KMC.
The **Entries** page displays by default.
2. Click the the **three dots menu** to the right of the desired entry, and select

Captions & Enrich.

Multiple videos

1. Click the boxes next to the desired videos.
The **More Actions** menu at the top of the page is activated.
2. Select **Captions & Enrich**.

The **Captions & Enrich** page displays.

Order machine captions

1. Complete the following fields:

- **Unit** – This option only appears in the event that different Reach profiles (budgets) are configured for each unit in your account. The selected unit will be charged for the captions request.
- **Service** - Select Machine.
- **Source Media Language** - Select the source media language from the drop-down menu. The options in the menu are dependent on your REACH plan.
- **Feature** - Select Captions.

automatically be updated upon completion.

Click the X at the top left to exit the screen.

When the captions are ready, they are automatically added to the video.

✓ You can set up an automatic email notification to be alerted when the professional captions are ready. This is configured by your administrator in the [Reach module's](#) notifiedUsers field.

Order professional captions

1. Complete the following fields:

- **Service** - Select Professional.
- **Source Media Language** - Select the source media language from the drop down menu (this is the language the video is currently in). The options in the drop-down menu are dependent on your REACH plan.
- **Feature** - Select Captions.
- **Turnaround time** - Select the turnaround time from the drop-down menu. The turnaround time options available in the menu are dependent on your REACH plan.
- **Speaker Names** - (Optional) Check to add the speaker's name(s) at the beginning of the captions. This feature must be enabled by your system administrator.
- **Instructions & Notes** - (Optional) This box is relevant for professional captions only, and is used for adding notes for the attention of human editors and reviewers.

- ✓ The general best practice for **Instructions & Notes** is to use them for unique terminology and names that are relevant for that file, and not, for example, a 1,000-word glossary. In addition, comments like "Please pay extra attention to the following X, Y, Z in the first five minutes of the video..." aren't effective because transcribers typically receive only portions of the file.

Existing requests

To view the order status, navigate to the three dots menu on the entry line and select **Captions & Enrich**.

The screenshot shows the Kaltura interface with a navigation bar at the top containing 'CONTENT', 'STUDIO', 'ANALYTICS', and 'SERVICES DASHBOARD'. Below the navigation bar is a search bar and a table of entries. The table has columns for Thumbnail, Name, ID, Type, Created On, Duration, Plays, and Status. A context menu is open for the entry 'Event_Strategy...' with options: 'Share & Embed', 'View Details', 'Captions & Enrich', and 'Delete'.

If there are existing requests, they are displayed in the **Existing Requests** section. (Clicking **+Order** will take you to the Order Captions & Enrichment Services section to create another order.)

Status types

The following statuses are available for captions requests:

- **Pending** - when generating new request

- **Pending for Moderation** - requests in approval queue
- **Rejected** - requests that were rejected on moderation. This status must include reject reason.
- **Processing** - sent to the vendor and vendor received request (you cannot cancel a request when the status is Processing)
- **Completed** - when captions were received from the vendor
- **Error** - an error was sent from the vendor
- **Aborted**

Use the arrow at the side of the request to display the order details.

User experience

Once captions are ready, they're automatically added to the media. Depending on admin settings, a CC button may appear, letting users toggle captions on or off. Admins can also set captions to display by default when playback starts. If multiple caption languages are available, users can select them from the captions sub-menu in the settings.
