

# Kaltura REACH v2 - Transcript Widget

The Kaltura REACH v2 Transcript Widget can be configured for each player in the KMC Universal Studio. See Instructions for [Adding the Kaltura REACH v2 Transcript Widget](#).

The Transcript widget shows the captions during playback. In the transcription playback mode, you can fast-forward or fast-rewind to search for a particular point in the video.

## To show the media transcript

1. Open the media page.
2. The transcript widget will be displayed by default.
3. You can select to Show Transcript or Hide Transcript.

The transcript for the video is displayed.

You can play the video and follow the transcript. The text is highlighted as it is played in the video.

You can search for a specific string in the transcript file. Enter the Search term in the Search field.

The image shows a video player interface. At the top left is the KALTURA logo, which consists of a stylized sunburst with eight colored rays (red, green, blue, yellow, orange, purple, pink, and grey) around a central black dot, with the word "KALTURA" in bold black letters below it. In the center of the video frame is a woman with blonde hair, wearing a dark blue blazer over a white top, gesturing with her hands as if speaking. Below her, a black subtitle box contains the text "channels galleries are set by the administrator and form the backbone". At the bottom of the video frame is a black progress bar with a white play button icon on the left and a white volume icon on the right, with the text "0:53 / 2:19" in the center. Below the video frame is a light blue search bar with a magnifying glass icon and the text "Search". To the right of the search bar are icons for download and print. Further right is a "Hide transcript" link with an upward arrow. Below these elements is a white text area containing a transcript of the video content. The transcript text is: "watching video content creating video content and managing video content for both live and On Demand Media space is useful for anything video related such as learning and training inside an organization supporting a video centric marketing website and onboarding portal for new employees or students of video content management system posting online corporate events and delivering corporate messaging and more if you want video in your organization media space is the solution you need let's take a quick look at some of the things you can do with your media space free trial in media space the your content is organized into galleries and channels galleries are set by the administrator and form the backbone of your organizational structure channels can let users group videos together via topic you can watch video content from both galleries and channels as an administrator you can create a new channel from Calcutta media space or K.M.'s and make galleries from your culture and management console or K.M.C. the thing credentials you got will work for both if you don't find your content there just search for it you can also create content with the media space creation tools suite upload ready made video capture from your webcam and screen create a video presence or bring You Tube videos into media stage that's

4. Click on the Download icon to download the transcription file.
