

Add a YouTube video in Video Portal

Last Modified on 01/11/2026 9:32 am IST

 This article is designated for all users.

About

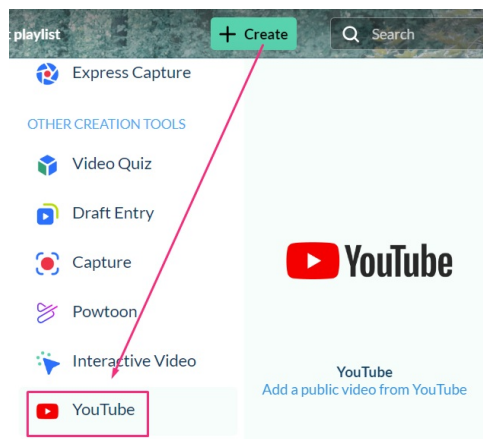

Looking to add YouTube videos to your Kaltura video portal? We'll show you how to seamlessly integrate public domain videos, enriching your content library while staying copyright-compliant.

Adding content from YouTube requires the [YouTube module](#) to be enabled.

Add media from YouTube

1. Select **YouTube** from the **+Add New** drop-down menu or **+Create** menu if you have Theming enabled (as shown in the image below).

The YouTube page displays.

YouTube

Video Page Link (or Content ID)

e.g.: "https://www.youtube.com/watch?v=81XmhlJhFg"

Preview

Note: Only public YouTube videos are supported

2. Copy the YouTube link (only public domain videos are supported)

2. Copy the YouTube link (only public domain videos are supported).

3. Paste the link into the **Video Page Link** field.

Video Page Link (or Content ID)

Preview Note: Only public YouTube videos are supported

5. Edit the name, description, and other metadata as desired.
6. Choose a publishing status, if required.

Please fill out these details:

Name: (Required) ERASE Bullying (public service announcement)

Description: **Black** **Bold** *Italic* Underline      

Did you know sharing hurtful comments online is cyberbullying? The Government of British Columbia has released this public service announcement to help create awareness of cyberbullying and to draw people to the ERASEbullying.ca website which includes information and tips on what to do if it's happening to you.

Department Name:

Department Division: Select a value

Date Established:

Publishing Schedule: ☒ Always ☐ Specific Time Frame
 (The time range in which this media will be visible to users in published channels/categories)

Complete all the required fields and save the entry before you can select to publish it to categories or channels. Note that the upload process needs to complete successfully for the "Published" option to be enabled.

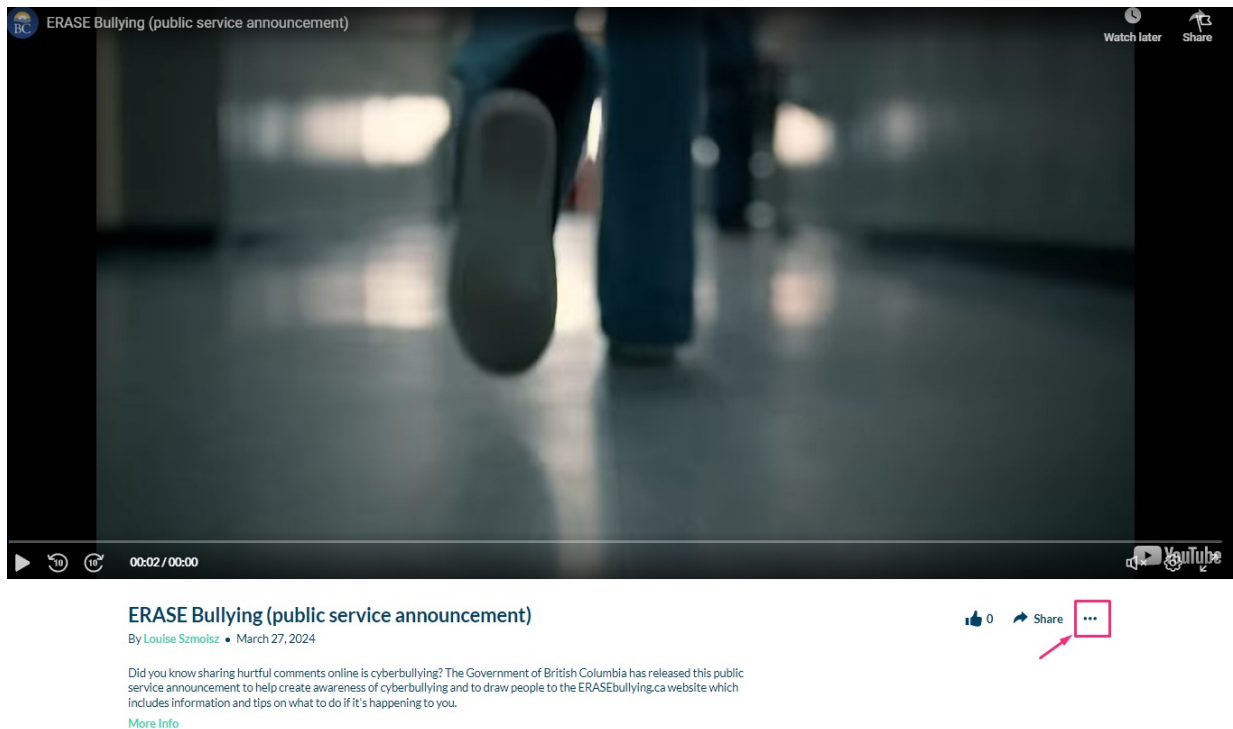

Publishing Status: ☒ Private - Media page will be visible to the content owner only.
☐ Unlisted - Media page will be visible to anyone with a link to the page.
☐ Published - Media page will be visible to users according to entitlements based on the selected destinations in the options below.

7. Click **Save**.

You can access the [Edit Media page](#) to edit and manage your entry just like any media entry.

Replace a YouTube link

1. Click the **three-dot menu** to the lower right of the video.

2. Select **Edit**.

- Add to playlist
- Edit** ←
- Add to watch list
- Analytics
- Launch editor
- Delete

The edit media page displays.

3. Click the **Replace Video** tab.

4. Enter the replacement video page link or Content ID.

Replace

5. Click **Replace**.

A Confirmation message displays. Click **Yes** to continue.

If you'd like to [edit the metadata](#), click the **Details** tab, make the desired changes, then click **Save**.

If a YouTube video won't play in the Video Portal, it may be because the video was deleted or unpublished on YouTube.

Analytics

Videos from YouTube, when linked to Kaltura via the YouTube module, include [analytics](#) pages like other entries. These analytics cover engagement within Kaltura Video Portal and LMS Video apps, and aren't combined with YouTube's playback analytics.
