

Add a YouTube video in Legacy Video Portal

Last Modified on 05/22/2026 12:55 pm IDT

 This article is designated for all users.

About

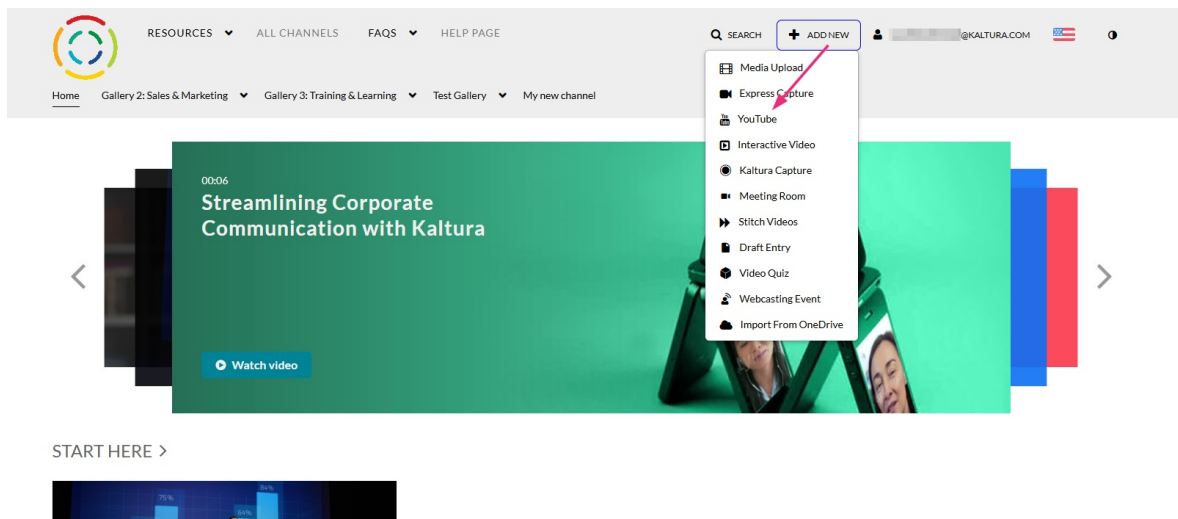

You can add YouTube videos to your Legacy Video Portal to expand your content library. Only public videos are supported, which helps ensure copyright compliance.

 Adding content from YouTube requires the [YouTube module](#) to be enabled.

These instructions apply to the **Legacy Video Portal**. If you're using the Theming-based Video Portal, please refer to the [Content Hubs category](#).

Add content from YouTube

1. Select **YouTube** from the **+Add New** drop-down menu.

The 'YouTube' page displays.

YouTube

Video Page Link (or Content ID)

Preview Note: Only public YouTube videos are supported

2. Paste the YouTube link into the **Video Page Link** field , then click **Preview**.

YouTube

Video Page Link (or Content ID)

Preview Note: Only public YouTube videos are supported

The YouTube entry displays in the preview window on the right. (Only public domain videos are supported.)

YouTube

Video Page Link (or Content ID)

Preview Note: Only public YouTube videos are supported

Please fill out these details:

Name: (Required)

Description: **Black** **Bold** *Italic* Underline     

See how immersive virtual agents deliver tailored guidance, dynamic content, and real-time insights that help customers succeed and grow. Interested? Click here and give it a try: <https://myuni.com/vs7y4bbs>

3. Review the metadata fields. The system fills in the video details automatically. You can update the name, description, and other fields as needed.

Please fill out these details:

Name: (Required)

Description: **Black** ▼ **Bold** *Italic* Underline [List Icons] [Link Icon] [Image Icon]

Choose department: ▼

Publishing Schedule: Always Specific Time Frame
(The time range in which this media will be visible to users in published channels/categories)

Complete all the required fields and save the entry before you can select to publish it to categories or channels. Note that the upload process needs to complete successfully for the "Published" option to be enabled.

Publishing Status: **Private** - Media page will be visible to the content owner only.
 Unlisted - Media page will be visible to anyone with a link to the page.
 Published - Media page will be visible to users according to entitlements based on the selected destinations in the options below.

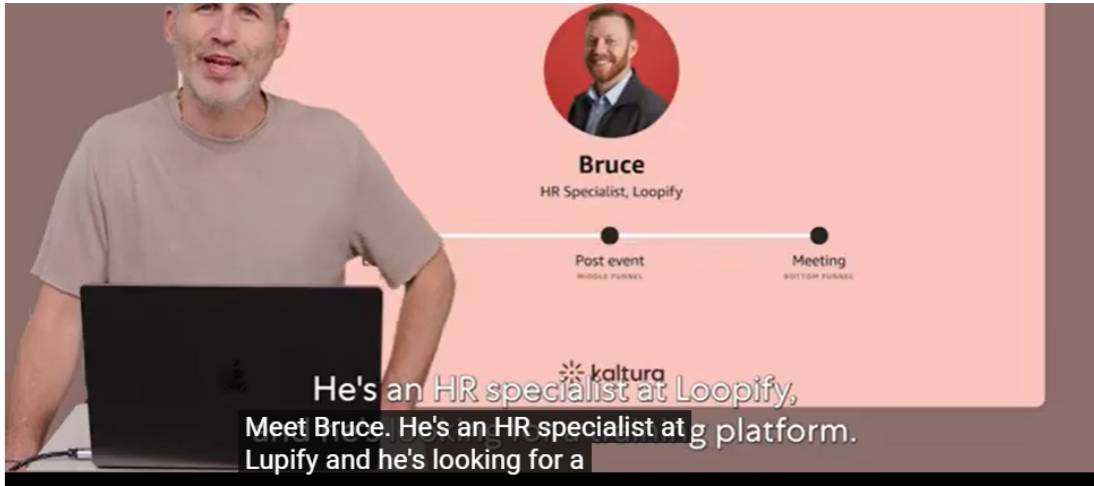

(Optional) Select a publishing status.

4. Click **Save**.

After saving, the entry is added to your media library. You can access the [Edit Media page](#) to edit and manage your entry just like any media entry.

Replace a YouTube link

1. Open the media entry.
2. Click the **Actions** menu below the video and select **Edit**.

[Save](#) [Go To Media](#)

 If the video doesn't play in your Legacy Video Portal, it may have been removed or made private on YouTube.

Analytics

YouTube entries added through the YouTube module include [analytics](#), similar to other media entries.

Analytics reflect user engagement within Kaltura applications, such as the Legacy Video Portal and LMS integrations. They don't include YouTube playback analytics.
