

# Add Media Through Kaltura Capture

The Kaltura Capture desktop recorder enables easy video creation anywhere by anyone.

## Add/Upload Media

To upload media from your desktop

1. Select Kaltura Capture from the Add New drop down menu.

You will be redirected to the following download page.

2. Download the application. See the article [Install/Launch the Kaltura Personal Capture Application](#) for instructions on how to install and download the application.
3. Create a recording using Kaltura Capture, see the article [Kaltura Personal Capture Overview](#) and follow the workflow from the information there.

## Viewing Rich Media in the Kaltura Player

After you upload your recording you can view your recording using one of the many robust features of the Kaltura Player. For more information about the viewing options, see [Viewing Rich Media in the Kaltura Player](#)

## Using Chapters and Slides

Chapters and slides are used as markers for navigation purposes. Slides are automatically created when a presentation is recorded using the Kaltura Capture. For more information about chapters and slides see [The Kaltura Player- Editing/Deleting Chapters and Slides](#)

To learn more about recording presentations see the article [Kaltura Capture Recording Options](#) .
