

Usage Analytics

Last Modified on 01/31/2022 11:22 am IST

Usage Dashboard

The Usage dashboard includes system reports on bandwidth, storage, and transcoding consumption to help you monitor your usage, and it is consisted of following sub-pages: Usage Overview Analytics, Publishers Bandwidth and Storage and End Users Storage.

- [Usage Overview Analytics](#)

The Usage Overview sub-page includes usage reports per Publisher ID and its children's accounts when configured.

- [Publishers Bandwidth and Storage Analytics Back](#)

The Publishers Bandwidth and Storage sub-page includes usage reports on bandwidth, storage and transcoding consumption over time, in addition to accumulative bandwidth and storage.

- [End-users Storage Analytics](#)

The End Users; Storage sub-page enables you to see the breakdown of storage and minutes by specific users, including total, added and deleted figures.

As a reference for analytics terms and definitions, please see the [Advanced Analytics Terminology](#) article.

Publisher Bandwidth & Storage

Export Jul 28 2018 - Sep 26 2018

Highlights

Bandwidth Consumption	Average Storage	Peak Storage	Added Storage	Deleted Storage	BW & Storage Consumption	Transcoding Consumption
11,254 MB	14,427 MB	17,406 MB	5,326 MB	0 MB	25,784 MB	2,290 MB

[View Details](#)

Accumulative BW & Storage

Accumulative Storage	57,941 MB	Accumulative Bandwidth & Storage	57,941 MB
----------------------	-----------	----------------------------------	-----------
