About

The Entry level analytics dashboard enables you to discover how your users engage with a specific entry, where they watched it from and with what devices so you can track and optimize your content. The dashboard can be used to explore engagement in different time periods and even compare between different periods. You can also filter based on a variety of parameters, including location and category. To learn more see Working with the Entry Level Analytics Dashboard.

Metrics over time

To explore engagement trends over time, use the graph to review key metrics:

- Number of player impressions
- Number of plays
- **Number of unique viewers** Number of authenticated viewers, all anonymous viewers will be counted as a single viewer. This metric is estimated and may differ slightly (by about 2%) from the count shown in downloaded reports. This is expected and due to differences in how totals are calculated.
- Number of minutes viewed
- Average completion rate How much of the video was watched
