## Editor Version 2.29.20 - 6 September, 2020

**KMS Version:** 5.100.x

**Player Version:** 2.83.3

**Kedit Version:** 2.29.20

**Date Released:** 6 September, 2020

### Resolved issue

- [SUP-23519](https://kaltura.atlassian.net/browse/SUP-23519) (<https://kaltura.atlassian.net/browse/SUP-23519>) - Update to the Editor's player version, resolves issues with seeking.

## Editor Version 2.29.13 - 2 June, 2020

**KMS Version:** 5.99

**Player Version:** 2.82

**Kedit Version:** 2.29.13

**Date Released:** 2 June, 2020

### What's New

**Accessibility fixes** - We have added the following accessibility changes:

- Made sure that tab ordering is working correctly.
- Audio selection is now reachable by keyboard navigation.
- Added the correct contrast for save button
- The 'Jump to time" is now reachable by keyboard navigation.
- Change default color to 008297 to match contrast for the whole editor.
- The Zoom buttons are now reachable by keyboard navigation.

**Translations** - The Editor is now translated to all languages.

**For Developers** - the editor now support a few additional features:

- Ability to create an entry object before calling "Save a Copy"
- The Save buttons are now exposed for external development.
- The editor now uses a KS to load images and thumbnails.

## Resolved issue

- [SUP-21636](https://kaltura.atlassian.net/browse/SUP-21636) (<https://kaltura.atlassian.net/browse/SUP-21636>) - Preview mode in editor stuck for youtube media
- [SUP-21237](https://kaltura.atlassian.net/browse/SUP-21237) (<https://kaltura.atlassian.net/browse/SUP-21237>) - thumbnail issue in video editor while using `AccessControlLimitThumbnail`

## Editor Version 2.28.11 - 1 April, 2019

**KMS Version:** 5.84

**Player Version:** 2.75

**Kedit Version:** 2.28.11

**Date Released:** 1 April, 2019

## Overview

These release notes pertain to Kaltura Video Editing Tools released 1 April, 2019.

## What's New

### **KEA – Hotspots tab:**

Create clickable hotspots on top of the player, set the appearance time and duration.

- Set the hotspot position
- Set the hotspot size
- Set the hotspot color, font, roundness

- Add links per hotspot

**Known Issues:**

- KEA and Player plugin - Hotspots are not supported on entry types other than Video type (i.e. Quiz entry / Webcast entry / Audio). KEA HS tab is still available.
- Player plugin - Font / Roundness don't maintain relative size when played in full screen / on Mobile
- KEA hotspots tab - No Volume control
- KEA hotspots tab – Not accessible via KMC yet
- KEA hotspots (Editor) is unavailable on web on mobile devices
- Hotspots are not supported in KMS GO native mobile app - roadmap feature
- Hotspots are not supported on iOS browsers - roadmap feature

**Supported Browsers**

KMS-17707	Accessibility - Narrator will not read buttons that are disabled.

## Editor Version 2.22.2 - 12 Feb, 2018

**KMS Version:** 5.69.14

**Player Version:** 2.63

**Kedit Version:** 2.22.2

**Date Released:** 12 Feb, 2018

## Overview

These release notes pertain to Kaltura Video Editing Tools released 12 Feb, 2018.

## What's New

- In the Edit Tab, the heads-up message when opening a Media with REACH captions, has been revised.
- In the Edit Tab, the Save and Save As messages have been revised and the warning message for media containing REACH captions is more intuitive.
- In the Edit Tab, the Save button is now disabled when no changes were made.
- Improved Save As UX.

## Resolved Issues

KMS-16744	Improved the Heads up warning about editing REACH-captioned media.
KMS-16740	The text in the warning in the Save dialog box regarding REACH-captioned media has been revised,
KMS-16743	In The Save As dialouge box, we added a label above the field: "Enter a title for the new media". . The Title suggestion is now left for a user to edit, rather than removed once clicked.
KMS-16741	Simplified and clarified the Save message.
KMS-16739	Saving is now disabled as long as no changes were made to media.

## Editor Version 2.21.0 - 15 Jan, 2018

**KMS Version:** 5.68.13

IE11			
IE10			

## Tested Devices

Dimentions	Device	OS	Browser
2048 x 1536	Samsung Galaxy Tab S2	Android 6.x	Chrome
2048 x 1536	iPad pro 9.7'	iOS 11	Safari
2048 x 1536	iPad air 2 9.4"	iOS 10	Safari
2048 x 1536	iPad mini 4	iOS 9	Safari
2560×1800	Google Pixel C		Chrome

## KAF Integration

KAF Name
Blackbaord
Canvas
Moodle

Sakai 10.x KAF Name
D2L

## Resolved Issues

KMS-15603	KAF UI is supported In this release.
KMS-15737	There is no longer a redundant 'Welcome' text in the Welcome Message default content.
KMS-15406	Questions or an Answers in a Quiz that are longer than 2 lines, now display properly.
KMS-15341	When creating/editing quiz Questions or Answers with long texts in the fields, it is now possible to place the mouse cursor at the end of the long strings.
KMS-16263	Cielo Captions Support - Media with Cielo captions will be trimmed and clipped, captions will be trimmed and clipped along with it. On the resulting media, the Cielo captions cannot be edited again using the Cielo captions editor, nor will the Transcript Widget (if existed) display.
KMS-15809	For Quizzes that were already submitted, the following will not be allowed: <ul style="list-style-type: none"> <li>1. Trimming - No "Save" button.</li> <li>2. Deletion of questions/answers.</li> <li>3. Changes to questions and answers text.</li> <li>4. Changes to the order of the answers.</li> <li>5. Adding new questions.</li> </ul>
KMS-16087	Clipping a quiz in its entire original length, will function as "duplicating" a quiz

## Limitations

--	--

KMS-16135	Multiple questions may be added to the same point on a quiz, however only the first question added will be answerable.
KMS-16056	The ESC button does not function as a shortcut to close the Preview Player display.
KMS-15729	In a Quiz for a YouTube entry the, the marker may jump over some question icons.
KMS-15633	When the Questionnaire list is downloaded there may be an encoding issue Russian text.
KMS-15616	Webcast Quiz/Video- Polls not Displayed for Webcast event (VOD)
KMS-15430	When Zoomed-out, Timeline Picker Still in previous Thumbnail While Video Is Already in The Next Thumbnail

#### Open Issues

KMS-16685	Edge only: In the question and answers field, the cursor is not in the center, it is left aligned.
KMS-16683	The text 'Created from..' is absent for co-editors.
KMS-16676	There is no tooltip for the Save button when opening the submitted quiz in the editing tools.
KMS-16675	The Save button in the Editor Tab is disabled for a Co-editor working on a Quiz, created by its owner.
KMS-16669	In the Quiz tab, the thumbnail in the time line bar may disappear.

KMS-16668	Moodle: There may be UI issues in in the KEA Quiz and Editor tabs
KMS-16667	It is possible to fill in answer and question fields with several lines of text with SHIFT+ENTER and no scrolling.
KMS-16663	The Preview player should be running with Space bar.
KMS-16661	Samsung tablet: The Preview in Editor shows the entire duration, and not the selected range.
KMS-16651	Questions may be saved with only spaces entered into the fields.
KMS-16609	YouTube entries: When the Quiz icon is clicked with a mouse, the question may not open.
KMS-16604	Cielo24: Captions are not added for a quiz entry, while json file created - same as always on quiz
KMS-16592	Add tool tips to the icons.
KMS-16591	IE 11: When Forward control is clicked, the video jumps to the end and the endless spinner displayed.
KMS-16452	Sakai: The vertical scroll bar in both editor tabs may cause UI issues to the timeline.
KMS-16433	Scroll bar UI make it barely seen and hard to grab.
KMS-16346	The Enter button does not move cursor to text area of box 'Save a copy'.

KMS-16343	Editor tab accessibility: TAB ignores some buttons and elements.
KMS-16342	Quiz tab: Review/Submit buttons are not clicked with Enter.
KMS-16341	Quiz: If using the TABm some elements in the Quiz tab may be ignored.
KMS-16240	Moodle: KEA should be scrolled to have the whole KEA in focus
KMS-16147	The app may hang when the Player is maximized.
KMS-16146	The UI of the time field in an Ipad air tablet: the upper border is light grey.
KMS-16127	In the Preview player, the distance between the last answer and Skip button may be too small.
