### Known Issues

The following are the known issues which Kaltura are working with Brightspace by D2L to resolve.

1. The issue where iFrame containing the BSE video does not allow full screen has been resolved by the Brightspace

by D2L team on the April release v10.8.0 (case ID: >PRB0050713).

2. When creating LTI links via InsertStuff CIM (which is what Kaltura uses for the BSE) it causes duplicates in the External Learning Tools page.

D2L informs us that the issue is planned to be released on BrightSpace version 10.8.1 (May). Brightspace case ID: PRB0056775.
