

Getting Started with Kaltura Interactive Video Paths

Expand/Collapse All

Overview

Kaltura Interactive Video Paths enable you to add choice-based learning paths to your videos, inviting your audience to engage and participate. With Interactive Paths, you can customize your content to create a more personalized, "choose your own adventure" experience for each of your users. You can create, share and embed video paths in your website, LMS, or MediaSpace Video Portal to increase engagement, enhance learning, and boost conversion.
